## Our Product

**Device** easy-to-install, wall-mounted, non-wearable, cameraless, operates in the background 24/7.

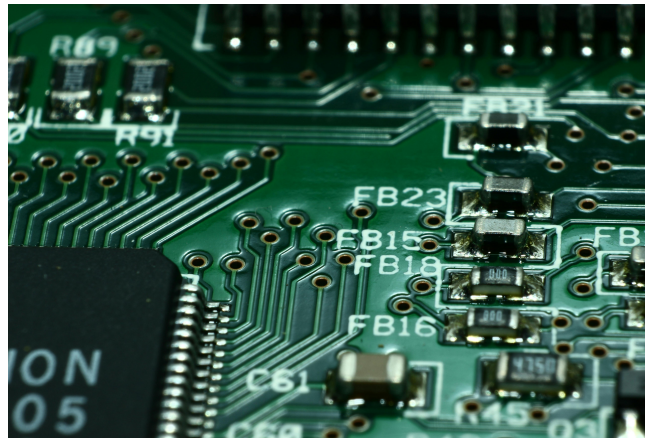

**Technology** fall detection using innovative sensors to track human movements and interpret a fall using our advanced AI algorithms.

**Alerts** automatically notify caregivers within seconds when life safety is at risk

## About Us

We are an AgeTech company based in suburban Chicago.

We develop technology and engineering solutions that serve our communities and save lives.

## Our Promise

Works in pitch darkness, providing complete protection when the risk of a fall is higher.

Operates in dense steam, safeguarding seniors in bathrooms where slips and trips often happen.

Does not use invasive cameras, protecting privacy and dignity in all living spaces.

Wall-mounted technology eliminates the need for residents to wear a device or take any action after a fall.

Adds safety with dignity

Improves quality of life

Brings peace of mind for caregivers

Technology that cares  
Solutions that matter™
