Delhi: Patiala court Advocate **Vishnu Joshi** says, "Basically, the incident occurred on the night of the 6th–7th in Goa, in which a total of 25 people lost their lives. The most tragic aspect was that four members from the same family died. Out of the 25 victims, 20 were club employees, and five were tourists. Among these tourists, one was from outside Delhi, while the four from Delhi who died were all from the same family. We are representing these four victims on behalf of the family, including the wife, who survived, while her husband and three sisters passed away in the incident."

Delhi: Patiala court Advocate **Vishnu Joshi** says, "As of now, the investigation is at a very crucial initial phase. First, they will be taken from here to Goa on transit remand and produced before a Goa court, where their police remand will be sought. After the remand period, they may again get opportunities to file for bail, either even today or at a later stage. Whenever they file a bail application, we will oppose it 100 per cent. Even after the charge sheet is filed, we will go to Goa and face the entire trial, opposing their bail at every step, so that the Goa Police can secure their transit remand and proceed with the investigation properly."
