MINIMUM OUTING COSTS (ANYDAY)	For a single outing (incl. 2hr of engine use)			\$300			\$400			\$500			\$600			\$800			\$1,000
	Additional hour of engine use			\$125			\$175			\$250			\$350			\$450			\$600

Depending on the type of membership they join, members settle a yearly membership. They can then start booking their outing(s) on MY · CLUB's booking system.

We have created a range of outing rates to regulate all bookings.

The High Rates are for the weekends in high season (May 1 to September 30) and the rates could reach as low as the Lowest Rates are for a low season outing or in low utilization time.

Once the outing is booked on the system, members would still have to settle the cost of that specific outing separately.

The OUTING COSTS correspond to the costs relating to the actual day of the outing and are over and above any cash cost used to book the yacht.

These costs vary for each and every boat as fuel costs and engine use are unique to each yacht and include by default captain fees, basic f&b, and fuel and engine use for only 2hrs.

Any other additional services or requests (these can be anything you order from catering to a therapist to a DJ to a live sushi chef!) are extra.

Note that these outing costs are equally applicable to outings booked through all types of memberships.

Note that all mentioned pricing and costs are excluding VAT.
