

Leading Tile Installer

DB Constructors, Inc. creates attractive floor patterns and wall coverings in several government and military buildings, in the Layton area. We are looking for a team of sharp and motivated individuals interested in putting their hardworking skills to use.

In this position, you will have the opportunity to set tiles of various sizes and patterns in areas such as bathrooms, and hallways. On the job you will work with our experienced tile setters and finishers to learn the ins and outs of how our company runs. As you grow, there will be an opportunity to lead and train your own crew.

Job Importance and Compatibility

Drafting, Laying Out, and Specifying Technical Devices, Parts, and Equipment - Follow blueprints precisely and mark and measure surfaces that need to be tiled to determine how to go about jobs.

Handling and Moving Objects - Deliver and carry all tools and materials needed to complete the job to the working area.

Organizing, Planning, and Preparation - Prepare and clean floors for installation of tile. Including some demo, scrapping, sweeping and vacuuming. Prepare various surfaces for tiling with crack isolation and waterproofing material.

Creative and Precise Thinking - Align tiles with a laser and straighten them with straightedges, levels and squares to create a tile layout to insure tile will be square, even and precise. Cut tiles and shape them properly to ensure they fit around obstacles, tight corners and odd spaces. Tap tiles into place carefully to properly adhere tiles to the base, making sure not to break or damage tiles.

Monitor Processes, Materials, or Surroundings - Monitoring and reviewing work of tile assistants to ensure quality work.

Finish and Complete Quality Evaluation of Project - Fill in tile joints and corners to complete the job using finishing materials such as grout and caulk. Final clean up and walk through with team.
