Puzzled About Telecom Costs?
KCCi Can Help

FREE PHONE SYSTEM ??? Is a question, to which the answer is **“Well not exactly”**. But, in most cases KCCi is able to provide our business clients with a new state-of-the-art feature rich VoIP telecom solution, **(either a new NEC SL-2100 or NEC SV-9100 phone system, dial-tone & warranty)** for the same or less cost than they, (our client) is paying now for their telco phone lines, taxes, maintenance and Internet.

KCCi’s SoSimple* plan redirects the savings in telco costs to help cover a faster and more efficient Internet performance. **KC’s SoSimple** plan provides a financing program that’s usually not available for small & medium sized clients, nevertheless the concept delivers a rapid ROI. *[*Certain conditions apply.]*

WOW! Tell Me More About KCCi’s SoSimple?

A simple way for KCCi Customers to finance new state-of-the-art VoIP phone system, with increased technology, enhanced Internet speeds, with a 60-month warranty, while utilizing the cost savings of KC’s SIP Trunk services.

Benefits:

- Provides significantly improved cost savings to the customer.
- Provides a financing program that is usually unobtainable for small/medium system sales.
- Provides our Customers with a new state of the art solution for the same or less cost than they are paying now.
- Provides the opportunity for our Customers to redirect their savings in Telco, (including tax) costs to a more efficient Internet and/or Data connection.
- Provides our Customers with a superior hardware warranty than what they would usually get.
