Healthcare facilities by their nature bring many challenges to Emergency Preparedness, readiness and response.

When 'the' event occurs, the training and abilities of your staff will make the difference. Preparedness is key.

Important to understand the limits of on site Human Resources comparing them to the challenges that will lie ahead in response to an Emergency must be addressed regularly.

A well thought out Emergency Plan, a clear understanding of the safety features found within Healthcare facilities, and the roles of each staff member are essential.

This training is a must for everyone in the Healthcare Industry.

Join us as we explore these and other important topics ~

- **Hazards of modern Healthcare facilities**
- **Understand basic requirements of Life Safety Codes**
- **Response requirements versus capabilities**
- **How to manage risk on a day to day basis**
- **Understanding 'Active' and 'Passive' protection systems within the facility**
- **Understanding the Life Safety measures designed into the protection of patients and staff**
- **Development of a site specific Emergency Plan**
- **Provide awareness training sufficient enough to be used as 'tailgate' sessions to ensure response readiness**
- **Function, use and maintenance of emergency response equipment**
