

Your Arc-Flash Study Resource!

- **FREE QUOTE! www.70eAdvisors.com**
- Experienced – Hundreds of studies and NFPA 70e qualified training sessions performed by experienced, qualified, and certified professionals.
- Specialized – This is what we do! This isn't something we are using to leverage other services to try and sell you equipment.
- Convenient locations – Pensacola, FL - Dallas, TX – Birmingham, AL
- Records kept on-site and using cloud base servers for unending record keeping. Your study will be accessible.
- 70e Advisors are experts at all facets of arc-flash including data acquisition, modeling, mitigation, labeling and training.
- 70e Advisors can provide an “evergreen” maintenance program to ensure your electrical system documentation and training is compliant and up to date.
- 70e Advisors provides the customer with the configuration files, this means the study is theirs, not just the report data.
- 70e Advisors utilizes IEEE 1584 standards during assessment to ensure NFPA 70E and OSHA General Duty Clause Section 5(a)(1) compliance.
- 70e Advisors utilizes labels that meet standards required by NEC® NFPA 70-2023 Section 110.16 Arc-Flash Hazard Warning.
- **Did we mention FREE QUOTE? 😊 Be safe!**
