## Tech Buddies | Classes 1 - 8

Computers are a very important part of our life. We use them in schools, homes, offices, shops, and even in games and entertainment. Learning computers at an early age helps children to think smart, solve problems, and use technology in a creative way.

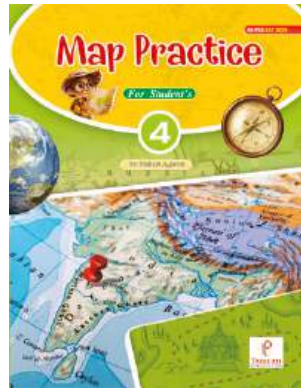

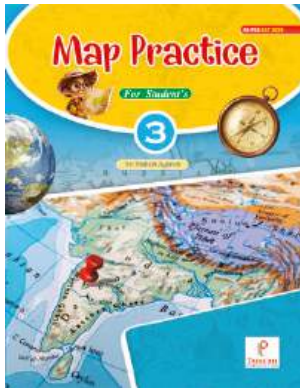

This book, **Tech Buddies** for Class 1-8, is written in a very simple and easy-to-understand language. It covers both theory and practical activities so that children can learn by doing. Each chapter includes:

- Clear explanations of computer concepts.
- Colourful pictures and diagrams to make learning interesting.
- Lab activities to practice on the computer.
- Exercises and questions to check understanding.
- Fun facts and projects to encourage creativity.

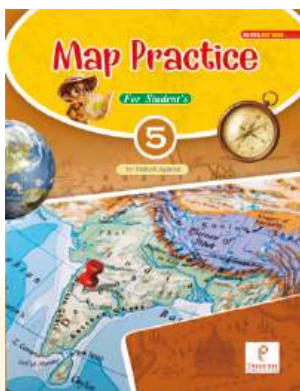

The book will take students on a journey through the basics of computers, Windows, MS Paint, MS Word, MS Excel, Scratch programming, Artificial Intelligence, and Game Design.

We hope this book will make learning computers a joyful experience and will help young learners become confident in using technology.

### लेखिका की कलम से.....

भाषा ही एक मात्र ऐसा माध्यम है जिसके द्वारा हम अपनी बात किसी के सामने प्रस्तुत कर सकते हैं। भाषा शिक्षण बोझिल न हो इस उद्देश्य को ध्यान में रखते हुए कक्षा एक से आठवीं तक की पाठ्य पुस्तक 'दीक्षा' हिंदी पाठमाला का निर्माण **नई राष्ट्रीय शिक्षा नीति (NEP)** के दिशा निर्देशों के आधार पर किया गया है। प्रस्तुत पुस्तक शृंखला विद्यार्थियों के लिए बोधागम्य बने, उनमें स्वतंत्र चिंतन क्षमता, कल्पनाशीलता तथा सृजनात्मकता का विकास हो इसका पूर्ण प्रयास किया गया है। आज के बदलते परिवेश, बच्चों की आयु, रुचि एवं क्षमता को ध्यान में रखकर ही पाठों का चयन किया गया है। सरल से जटिल को दृष्टिगत रखकर पाठों का क्रम निर्धारित किया गया है। इस शृंखला के निर्माण में हमारा यह उद्देश्य भी रहा है कि सामग्री ऐसी हो जिससे विद्यार्थियों के नैतिक मूल्यों व चारित्रिक गुणों का विकास हो।

### पुस्तक की विशेषताएँ

1. राष्ट्रीय पाठ्यचर्या की रूपरेखा (NCF) 2023 पर आधारित।
2. विद्यार्थियों की आयु, क्षमता, आवश्यकता, उपयोगिता एवं रुचि के अनुसार पाठ का चयन किया गया है।
3. सुग्राह्य व रोचक बनाने हेतु पाठों की सचित्र रचना।
4. पाठ्य पुस्तक व अभ्यास पुस्तक का सम्मिलित रूप।
5. पाठों का क्रम सरल से जटिल के सिद्धांत पर आधारित।
6. हिंदी भाषा के अतिरिक्त अन्य भारतीय व विदेशी भाषाओं की श्रेष्ठ रचनाओं का समावेश जिसके माध्यम से विद्यार्थियों को विभिन्न संस्कृतियों के ज्ञान के साथ-साथ मानव मूल्यों की पहचान, व्यापक दृष्टिकोण तथा मानवतावाद का संदेश दिया जा सके।
7. साहित्य की प्रायः सभी विधाओं कथा, चित्र, कहानी, लेख, नाटक, कविता, संस्मरण, हास्य, व्यंग्य, जीवनी, पत्र, प्रेरक प्रसंग, संवाद, भेंट वार्ता आदि का समावेश किया गया है।
8. पाठों में देशभक्ति, साहस, आत्मबल, त्याग, बलिदान, निर्भीकता, परोपकार, श्रम, सहयोग, सौहार्द, सर्वधर्म समभाव के साथ-साथ वैज्ञानिक दृष्टिकोण, जीवन मूल्यों का समावेश कर विद्यार्थियों को संवेदनशील, सच्चरित्र, देशभक्त बनाने का प्रयास।
9. हिंदी के सभी श्रेष्ठ व प्रसिद्ध लेखकों की रचनाओं का समावेश।
10. अतिरिक्त पठन सामग्री, प्रेरक प्रसंगों का समावेश कर पुस्तक को रुचिकर बनाने का प्रयास।

## प्रस्तावना

प्राथमिक शिक्षणाच्या अभ्यासक्रमावर आधारित इयत्ता १ली ते इयत्ता ८वी करिता हे मराठीचे पाठ्यपुस्तक तयार केले आहे.

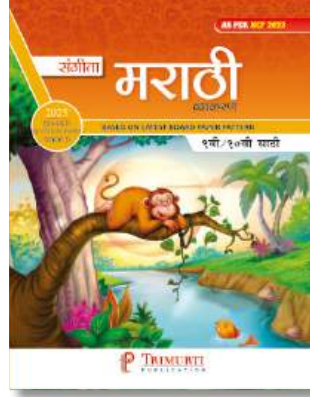

भाषेच्या अभ्यासातून माहितीचा संग्रह वाढावा, ज्ञानात भर पडावी, विचारांचा विकास व्हावा, दैनंदिन जीवनात भाषिक व्यवहारासाठी आवश्यक ती लेखन, संभाषण कौशल्ये विकसित व्हावीत, अवांतर वाचनाची गोडी लागावी व त्यातून ज्ञान व मनोरंजन दोन्ही साधवे, विविध साहित्य प्रकारांच्या अभ्यासातून व्यक्तिमत्त्व विकसित व्हावे, चांगली मूल्ये रुजावीत, विद्यार्थ्यांच्या कल्पक व सर्जनशील अभिव्यक्तीला वाव मिळावा, त्यांची अभिरुची उत्तम घडावी अशा भाषेच्या अभ्यासातून अभिप्रेत असलेल्या सर्वच उद्दिष्टांचा विचार करून या पाठ्यपुस्तकाची रचना केलेली आहे.

विविध साहित्य प्रकारातील पाठ निवडताना आशयघनता व रंजकता याला विशेष प्राधान्य दिले आहे तसेच पाठातील विषय प्रत्यक्ष जीवनव्यवहाराशी निगडित असतील याची दक्षता घेतलेली आहे आणि अपेक्षित जीवनमूल्ये या साहित्यातून ठळकपणे प्रतीत होतील हाही विचार केला आहे.

स्वयं अध्ययनासाठी पाठांच्या शेवटी शब्दांचे अर्थ व स्वाध्याय दिलेले आहेत. त्यातून आकलन दृढ व्हायला मदत होईल. भाषिक कौशल्य वाढवण्यासाठी व व्याकरणाच्या सरावासाठी स्वतंत्र कार्ये दिली आहेत तसेच विचारशक्तीला व कल्पनाशक्तीला चालना मिळावी म्हणून उपक्रम सुचवले आहेत.

विद्यार्थी, पालक आणि शिक्षक या पाठ्यपुस्तकाचे स्वागत करतील अशी आशा आहे. उपयुक्त सूचनांचे स्वागत आहे.

### मनोगत

मराठी विषयाचा शिक्षक असल्यामुळे विद्यार्थ्यांना मराठी विषय शिकवितांना त्यांना काय आणि कशा प्रकारच्या अडचणी येतात हे लक्षात येत होते. तेव्हा मनात विचार आला की, आपणच ह्या विद्यार्थ्यांसाठी सोप्या, सरळ भाषेत, भरपूर उदाहरणांचा समावेश करून पुस्तक का लिहू नये!

मनातील हा विचार २०१० साली स्पर्धा परीक्षा मार्गदर्शक म्हणून मराठी व्याकरणाच्या अभ्यासकांसाठी नूतन सुलभ मराठी व्याकरण ह्या पुस्तक स्वरूपात प्रकाशित होऊन पूर्ण झाला.

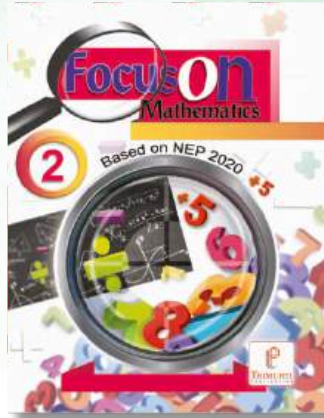

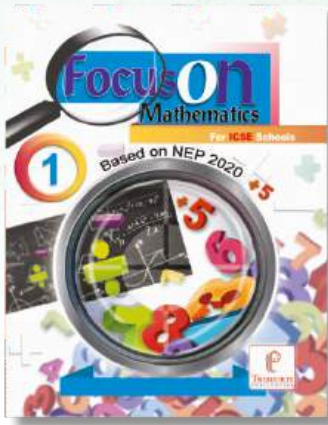

तदनंतर इयत्ता १ली ते इयत्ता १० वी पर्यंत शिक्षण घेत असलेल्या विद्यार्थ्यांसाठी सुद्धा मी व्याकरणाचे स्वतंत्ररीत्या पुस्तक लिहावे हा माझ्या सहकाऱ्यांचा आग्रह होता, म्हणून आज ते कार्यही पूर्णत्वास येऊन इयत्ता ६ वी चे मराठी व्याकरणाचे पुस्तक आपल्या हाती देत असताना मला अतीव आनंद होत आहे.

प्रत्येक इयत्तेनुसार विद्यार्थ्यांने व्याकरणाच्या कोणकोणत्या अंगांचा परिपूर्ण अभ्यास करावा हे मानसशास्त्रीय दृष्टिकोनातून निश्चित केले आणि त्याच पद्धतीने इयत्ता १ली ते इयत्ता १० वी पर्यंतच्या व्याकरण पुस्तकांचे लेखन केले आहे.

म्हणून या पुस्तकातील विविध घटकांच्या अभ्यासाने विद्यार्थ्यांचा व्याकरणाचा पाया संपूर्णतः पक्का होईल असा मला विश्वास आहे.

आपल्या सूचना आमच्यासाठी शिरोधार्य राहतील.

## Focus on Mathematics | Classes 1 - 5

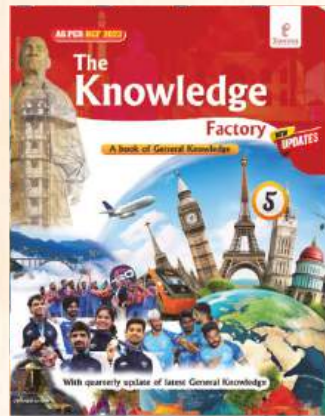

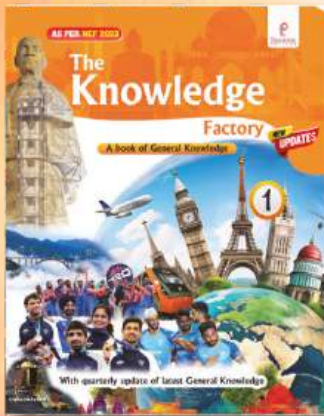

**Focus on Mathematics** takes up the study of the subject not only as mere calculations but as a platform to allow children to comprehend, reason, analyse and then find solutions.

### SALIENT FEATURES:

- ☞ The series has adopted a different approach to the teaching of Mathematics- hands on experience, a child can learn the basic concepts from things around him. This ensures a long lasting impact on the mind of a child.
- ☞ **Exercise** after each concept helps learners practise and clear the understanding of the concept learnt.
- ☞ **Mental Maths** in each chapter helps learners to sharp their mental ability and train them to calculate mentally with accuracy and speed.
- ☞ **Review Exercise** at the end of each chapter helps to revise the concepts learnt within that chapter.
- ☞ **Maths Lab Activity** at the end of each chapter gives the learner an opportunity to explore the concepts through activities. Following the steps, in Maths Lab Activities, the child can perform the given activity, observe the results and derive the facts.
- ☞ **Fun time** section makes learning enjoyable. It helps them to sharpen their minds in a fun way.
- ☞ **Oral questions** check the learner's understanding about the concept as well as their quick replying ability.
- ☞ **Answers** have been provided at the end of the book. (Except for class 1)

We wish that this series will make the learning of Mathematics effective as well as fun, both for the learners and the teachers.

## The Knowledge Factory | Classes 1 - 8

This is a book especially for you. It will be your guide to a fascinating world of knowledge anytime, anywhere. Some pages will try your intellect while others will be just fun to indulge in.

The Knowledge Factory is a series of eight books for classes I - VIII on General Knowledge, which have not only been designed and graded with up-to-date information but also equips you with practical skills. The Contents of this series is selected and upgraded as per the New Education Policy (NEP) 2020.

It has been our aim and guiding spirit to set forth before you pages full of interesting anecdotes, culture, literature, science, art, sports, languages, physical and political history of every land and its people.

As you read and solve the various quiz and questionnaires you will learn not only about current affairs but many a minute detail about social norms, behavioral techniques, stress busters and even survival skills.

We would like to take this opportunity to involve not just kids but parents and teachers to guide these young minds to turn things around for the better - make this world a healthier place to live in, be sensitive to one and all, create a better world for their own future. Someday they will be leaders of this world.

We hope this humble beginning will go a long way. I look forward to your feedback to The Knowledge Factory series and to any input you may like to add to improve it.

## कुञ्ज कणिका | Classes 1 - 8

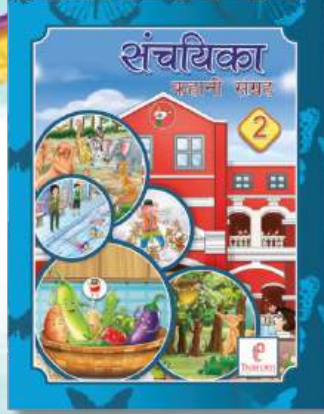

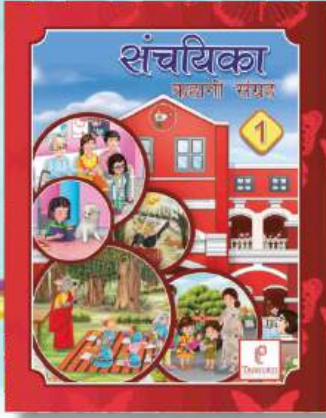

संस्कृत भाषा विश्व की प्राचीनतम भाषाओं में से एक है। भारत की संस्कृति इसी से सुरक्षित है। संस्कृत भाषा भारतभूमि की देन है, वेद, वुराण, उपनिषद शास्त्र, दर्शन, ज्योतिष, चिकित्सा, साहित्य तथा व्याकरण आदि सभी संस्कृत की देन है इन सब का ज्ञान प्राप्त करने के लिए तथा स्वयं का इतिहास जानने के लिए भी हमें इस भाषा का अध्ययन करना अनिवार्य है। भारत में जितनी भाषाएँ बोली जाती हैं, उनके अधिकांश शब्द संस्कृत में पाए जाते हैं। भारत की अनेक भाषाओं का निर्वाह, संस्कृत के शब्दकोश के सहारे होता है। इसमें नए-नए शब्दों का निर्माण की अद्भूत क्षमता है।

भारत की संस्कृति को सुरक्षित रखने के लिए संस्कृत भाषा का ज्ञान आज के समय में आवश्यक है। विशेषकर जब आज का युवावर्ग अपनी संस्कृति से पृथक होता जा रहा है। इसीलिए संस्कृत के प्रारंभिक ज्ञान के लिए 'कुञ्ज कणिका' संस्कृत पाठमाला की श्रृंखला की रचना की गई है।

प्रस्तुत पुस्तक श्रृंखला 'कुञ्ज कणिका' संस्कृत पाठमाला की यह कड़ी छात्रों के बीच रोचक व महत्त्वपूर्ण सिद्ध होगी। प्रारंभिक स्तर पर छात्रों को संस्कृत भाषा के स्वरूप तथा भाषा की बनावट की मूलभूत जानकारी देने का प्रयास किया गया है। सरल, सुगम तथा व्यावहारिक संस्कृत भाषा प्रयोग है। चित्रों का अधिकाधिक संयोजन करके विषय वस्तु को आकर्षक तथा रोचक बनाने का प्रयास है। छात्रों के मानसिक स्तर, रूचि तथा उपयोगिता को ध्यान में रखकर पाठों का निर्माण किया गया है।

आशा है कि सभी विशेषताओं के साथ यह पुस्तक श्रृंखला छात्रों को अधिक रोचक प्रतीत होगी। पाठमाला के विकास के विभिन्न चरण में सहयोग देने हेतु 'त्रिमूर्ति पब्लिकेशन' की हृदय से आभारी हूँ। आप सभी के अमूल्य सुझावों का हम सदा हृदय से स्वागत करेंगे।

The creative Arts is an essential component of childhood development. Activities given in this book will involve a child in experimenting with a variety of techniques to make simple projects.

This book encourage freedom of expression and promote a child's creativity and decision-making skills by allowing time simply to play and by accepting all final projects as wonderful, which they surely will be.

Many projects offer suggestions after directions. Feel free to make your own variations. Even if the craft "flops", you still have learned something through the process of making it. You can always go back together and try the craft again.

As with most instructive books, make sure to read all the directions before starting a project. The materials list will sometimes give you a choice. The directions refer to the first items listed but will work with whichever material you choose.

Many of these projects can - and Should - be displayed. Seeing their own handiwork to be hung up in home helps child to develop a sense of pride and self-worth. Some projects can be used for school projects.

Most importantly, have fun and be creative!

Learning Art and Craft is an enjoyment for children as with art and craft, they are able to express their ideas and emotions and it gives them a lot of happiness. Since children are extremely creative, it also fulfills their creative thirst.

**Art Unlimited** is a series of art and craft book, the content and material of which are carefully designed so that children can explore their creative side as well as enjoy them. It has also been considered that the contents of this series are selected and upgraded as per the **New Education Policy (NEP) 2020**.

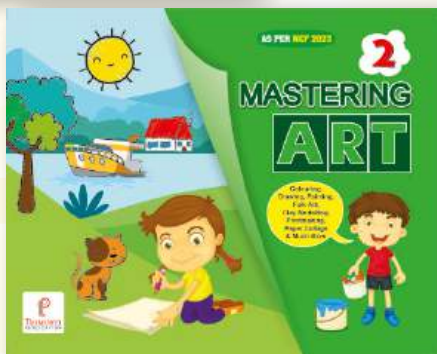

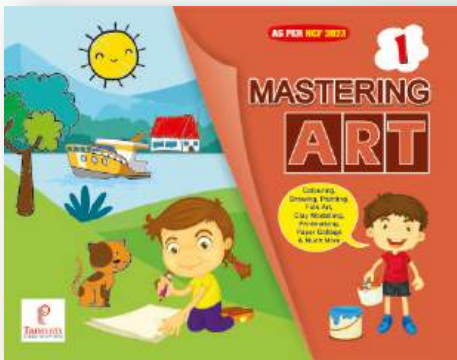

In this series, the Lower classes to Higher classes section, contains art projects specially designed for students at this level that will provide them with opportunities to understand and enjoy each topic. In our effort of doing so we tried to include a wide variety of art forms and styles (both modern as well as traditional) in this series.

The Art Unlimited series is created to fulfill the requirements of both art teachers as well as students. Easy to understand language is used in each topic and step by step pictorial explanations are given wherever required. Each book covers all kinds of art forms, themes and presentation along with additional information about the subject if required.

Materials used / provided in this series of books are chosen in such a way that minimize the use of plastic (i.e. zero plastic use) to save the environment and educate children about the same.

Lastly, a few pages on Art Heritage is added to know and understand our rich traditions. Suggestions for improvements are always welcome.

## Reasoning and Aptitude | Classes 1 - 8

Logical reasoning plays a very important role in increasing the intelligence quotient of children. It shows a child's ability to analyse and distinguish between right and wrong. It helps children to take correct and effective decisions, not only in examination but also in real life situations.

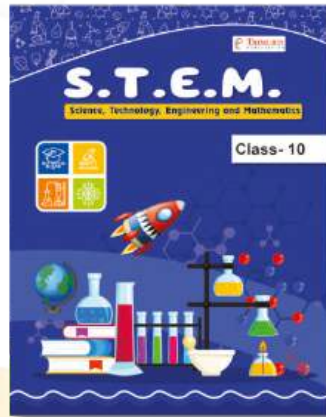

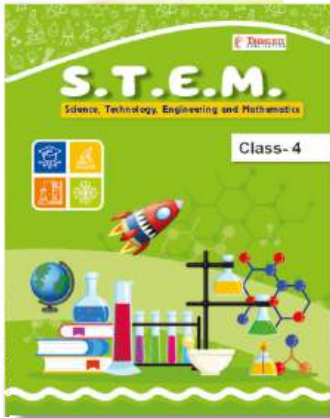

Logical reasoning is a skill and it can be improved through practice and revision. It also improves mathematical, logical, problem solving abilities and communication of learners.

Logical reasoning is one of the most important life skill that children should be taught from early age. With the fast changing world and emergence of new technologies after every few months, children should be able to face the real life situations. They must be able to think, analyse and compare things independently and draw conclusions.

This series of books on Reasoning and Aptitude has been specifically designed and developed by our expert writers to cater to the needs of the young learners. It consists of Multiple Choice Questions (MCQ) which test thinking, reasoning, problem solving and logical abilities of the learners.

It would help children become quick thinkers who analyse and compare the things before making a decision.

We wish you every success in your pursuit of life.

## Sparkling Computers | Classes 1 - 8

“Technology has become the synonymous of development of human race. Technology is the extended arm of human beings to carry out their day to day lives. There can be no question it has succeeded in easing our lives to broaden our horizon of knowledge and certainly brought us together and made the world a digital village.”

Keeping this in view a series of eight books “**Sparkling Computers**” has been designed. This series is for class 1 to 8. It incorporates the fundamentals of windows 10 and MS Office 2016. The content of these books is in consonance with that prescribed by the CBSE, ICSE and other state boards. It is learner-centred and is in keeping with the feedback from computer educators and learners from various schools. The field of computers is ever-changing with innovations constantly pouring in. The data given in these books are updated.

The text of the books is in clear and lucid language. The figures are self explanatory and indicate step wise instructions which make it easier for learners to comprehend.

The assessment don't just evaluate the factual knowledge of the learners but go beyond it. A multitude of lab activities, and practice of computers fosters the nurturing of scientific temper and a practical approach among learners. These books do not encourage mere rote learning but an approach that envisages learning by doing.

## Health & Yoga | Classes 3 - 5

“Physical Education and Wellness with Yoga & Fitness” is a comprehensive series specially designed for primary school students of Classes 3, 4, and 5.

The series combines physical education, wellness education, and yoga practices in a simple and engaging way. Each book in the series contains:

- **Age-appropriate activities** to develop strength, balance, and flexibility
- **Yoga poses** with step-by-step illustrations and breathing tips
- **Fun games and exercises** that encourage teamwork and coordination
- **Wellness tips** to promote healthy eating, good hygiene, and emotional balance
- **Assessment activities** and reflection questions to track learning progress

The content follows the principles of the National Education Policy (NEP 2020) and focuses on holistic development — nurturing the body, mind, and spirit.

By practicing regularly, students will not only improve their fitness but also learn valuable lessons about discipline, patience, empathy, and respect for others.
