 All Item Groups	39
 All Items	100

Trusted by leading brands

Manage locations, move stock

Visualize stock availability across warehouses, initiate transfers, and make better decisions with powerful reporting.

Multi-channel sales, made easy

Streamline sales and automate stock updates across your sales channels, including Amazon, Shopify, and more.

Track items, take control

Manage items, create bundles, group items based on variants, and track serial numbers and batches numbers.

Fulfill orders, deliver happiness

Fulfill all your orders centrally. Connect with 40+ global shipping carriers, and update customers instantly on their orders.

“

Zoho Inventory has been a **great addition to managing our small business** across North America. Managing stocks and returns across the multiple warehouses has been easier than expected.
