

- Features & Benefits**
- High pulse current for starting motors/back-up generators
  - High steady load (up to 30 A) applications
  - Low ESR allows prolonged battery life

**Specifications**

Rated capacitance	30 F
Energy Storage (max)	1 Wh
Voltage (max)	16.2 V
ESR (milliohms)	30
Weight (max.)	1100 g
Operating Temperature	-40 C to + 65C
Pulse Current (max)/Current	100 A for 900 milliseconds, 30 A max steady load
Leakage current	Less than 100 Microamps at 12 Volt constant after 70 Hrs; 18.3° C (65 F)
