Mission and Vision Statements

Mission

Trade Specialist & Product Solutions Corp. renders top-quality and thorough service by supplying a wide-range of products, ranging from food to equipment, to fulfill the requirements and needs of both private and public sector clients with utmost diligence, precision, and attentiveness.

Vision

To be the preferred partner in both public and private procurement needs—recognized for its commitment to providing stellar client-centered services with utmost integrity—through the provision of topnotch supplies for their end-users.

Core Values

Integrity. This is the foundation of building trust between and among clients. Further, integrity [as a value] ensures that that these transactions serve the end-user’s best interest whom, by extension, are also our clients. By operating with strong ethical and moral principles, we fortify the relationships built through business transactions.

Adaptable. The act of procuring various goods requires an ability to adjust, or to be agile, to the ever-changing circumstances and landscapes of all supply chains. Being able to adapt means that we can find creative and innovative solutions to supply the needs of our clients—this is key in successfully procuring whatever the client requires.

Excellence. We aim at pursuing the highest standards of quality and professionalism in the conduction of all of our transactions and services; this is the heart of providing satisfaction to our clients. Thus we are committed in continuously improving our operations so as to deliver nothing less of what is expected of us by the clients.

Accountability. We deliver what we promise. To build trust and establish long-lasting business relationships, our clients must rely on our ability to provide what is asked with utmost diligence and care while meeting and maintaining any compliance requirements. Further, this ensures our performance only improves over time.
