

Reset Getaway

Reset Getaway is designed to be a three-to-eight-day stress free retreat on Reset Ridge in the beautiful mountains of La Florida, Dominican Republic. Reset Getaway is geared towards providing an opportunity for a personal reset for First Responders and Frontline Workers from the United States, the Dominican Republic, and The Bahamas.

Reset Getaway is a CTC Network partnership initiative with Project Ruth and Hope Plaza.

The Reset Getaway building is scheduled to begin construction in 2024 on CTC Network property in La Florida Dominican Republic.

The estimated cost for the facility is \$250,000 USD. This 2-story building will have 8 separate bedrooms and 4 full restrooms on the upper floor. The lower floor will have 4 full restrooms, a large multi-use room for kitchen, pantry, and laundry room, and a large dining hall/meeting room. The completed facility will include twin over full bunk beds, air conditioner, showers, porcelain sinks and toilets, bath towels, linens, on demand water heaters, ceiling fans, 2 stove/ovens, refrigerator, freezer, 2 washing machines, cookware, dinnerware, pantry and storage, tables, chairs, vending machines, projector and screen, sound system, and internet access.

The estimated cost includes a mountain top prayer gazebo/reflection garden and a 2 bedroom, 2 story house for the property manager. The property manager will oversee the entire Project Ruth activities including, but not limited to, Reset Getaway visitors and mission outreach teams.

Upon completion of this phase of construction Project Ruth will be able to comfortably house 8 Reset Getaway couples and 16 short-term missionaries. The Reset Getaway building can also be used to house up to 16 short-term missionaries.

Current facilities at Project Ruth include a medical clinic, future dental clinic, and a church/multi-purpose building.
