

At the heart  
of progress  
across  
the Gulf.

THE  ARAB  
ADVANCE

*Always Choose Wisely*

## About The Arab Advance

Founded in 1990 in the Kingdom of Saudi Arabia, Arab Advance has steadily evolved from a regional trading company into a multi-sector group with a reputation for quality, innovation, and reliability. Over three decades, we have expanded into Trading, Construction, Fire & Safety, and Plastic Recycling — serving as a trusted partner to industries, businesses, and communities across the Gulf.

Our success is built on skilled teams, global partnerships, and a forward-thinking mindset. From providing essential materials that power construction projects to installing systems that safeguard lives, Arab Advance plays a vital role in building resilient infrastructure, enabling sustainable growth, and advancing industries for the future.

We believe in progress that matters — progress that creates opportunity, protects lives, and supports sustainability.

## Our Vision

At the heart of progress across the Gulf.

To lead the transformation of the built environment through intelligent design, integrated solutions, and trusted partnerships — becoming the region's benchmark for excellence in construction services, trading, industrial innovation, safety, and sustainability.

## Our Mission

Advancing what matters, every day.

We exist to support systems that work better, safeguard lives more effectively, and power the operations that keep our communities moving. Whether through innovation, service reliability, or strong partnerships, our mission is clear: to advance what's essential.

# Our Core Values

Our values guide how we think, build and grow:

- Build with Integrity  
Honesty, trust, and accountability in every action.
- Advance through Excellence  
High standards, precision, and smart solutions.
- Put People First  
Safety, wellbeing, and inclusion for teams and communities.
- Lead with Purpose  
Embrace innovation and create lasting value.
- Sustainability at the Core  
Minimize impact, support efficiency and build long-term value.

35 years of proven expertise in Saudi Arabia and the Gulf.

Diversified portfolio spanning four specialized divisions.

Strong compliance with Saudi Building Code and international standards.

## Why Arab Advance?

Long-standing partnerships with global brands and clients.

Commitment to innovation, safety, and sustainability.

Trusted reputation for on-time delivery, fair pricing and customer service excellence.

# Our Subsidiaries

Trading

## The Arab Advance for Trading

Arab Advance for Trading was established to supply comprehensive solutions to the construction, plumbing, electrical, and industrial sectors. With decades of market experience, we have become a trusted name for both wholesale and specialized supply across the Eastern Province and beyond.

# What We Do

## Building Materials

We provide a comprehensive range of building materials that form the backbone of construction projects across the region. All products are sourced from trusted manufacturers to ensure durability, performance, and compliance with international standards.

Key Offerings:

- Cement, wood, porcelain, and tiles for diverse construction needs.
- Tile adhesives, fiber mesh, and finishing accessories.
- Steel reinforcements, nails, tie wires, and fasteners.
- Aluminum, fiberglass, plastic, and steel manhole covers.
- Wide selection of construction-grade timber and ladders.

## Plumbing Solutions

Our piping and plumbing systems support safe water distribution, waste management, and fire safety infrastructure. We cater to both residential and industrial applications.

Key Offerings:

- PVC, CPVC, PPR, HDPE, and carbon steel pipes & fittings.
- Flanges, valves, and high-pressure piping systems.
- Water pumps, filters, and drainage systems.
- Adhesives and solvents for PVC & CPVC applications.
- Complete solutions for plumbing networks in buildings.

## Electrical Systems

We deliver electrical infrastructure solutions that power and protect projects of every scale — from residential to industrial facilities.

Key Offerings:

- Cables, wires, and copper wiring systems.
- Panels, breakers, switchgear, and distribution boards.
- Lighting systems, switches, fans, and fittings.
- Automation and energy-saving solutions.
- Electrical conduits, elbows, and protective accessories.
- Electrical conduits, elbows, and protective accessories.

## Sanitary Ware

Our range of sanitary ware products blends functionality, comfort and modern design to meet the needs of both households and commercial projects.

### Key Offerings:

- Toilets, bidets, and wash basins.
- Mixers, valves, and innovative shower systems.
- Bathtubs, floor drains (aluminum, stainless steel, plastic).
- Mirrors and bathroom accessories.
- Exclusive high-quality sanitary solutions from trusted brands.

## Tools & Equipment

We supply industrial-grade tools and equipment that ensure efficiency, reliability, and precision across construction and mechanical industries.

### Key Offerings:

- Hand tools: wrenches, pliers, hammers, and chisels.
- Power tools: drills, angle grinders, and cutting discs.
- Compressors and generators for industrial use.
- Measurement devices: calipers, multimeters, and gauges.
- Wide range of mechanical and construction accessories.

## Safety Gear

We are committed to protecting lives and ensuring workplace safety through our complete line of certified protective equipment and safety systems.

### Key Offerings:

- Head protection: helmets and hard hats.
  - Eye & face protection: goggles, face shields, welding masks.
  - Respiratory protection: reusable & disposable masks, respirators.
  - Hand & foot protection: gloves, safety shoes, and boots.
  - Protective clothing: coveralls, reflective vests, jackets.
  - Fall protection: harnesses and fall arrest systems.
  - Electrical protection: insulated gloves and safety.
- 

# Strengths

Integrated solutions for contractors, factories, and retail outlets.

Exclusive partnerships with reputable international brands.

Wholesale distribution network across Eastern Province.

Professional team providing technical and logistical support.

# Our Partners

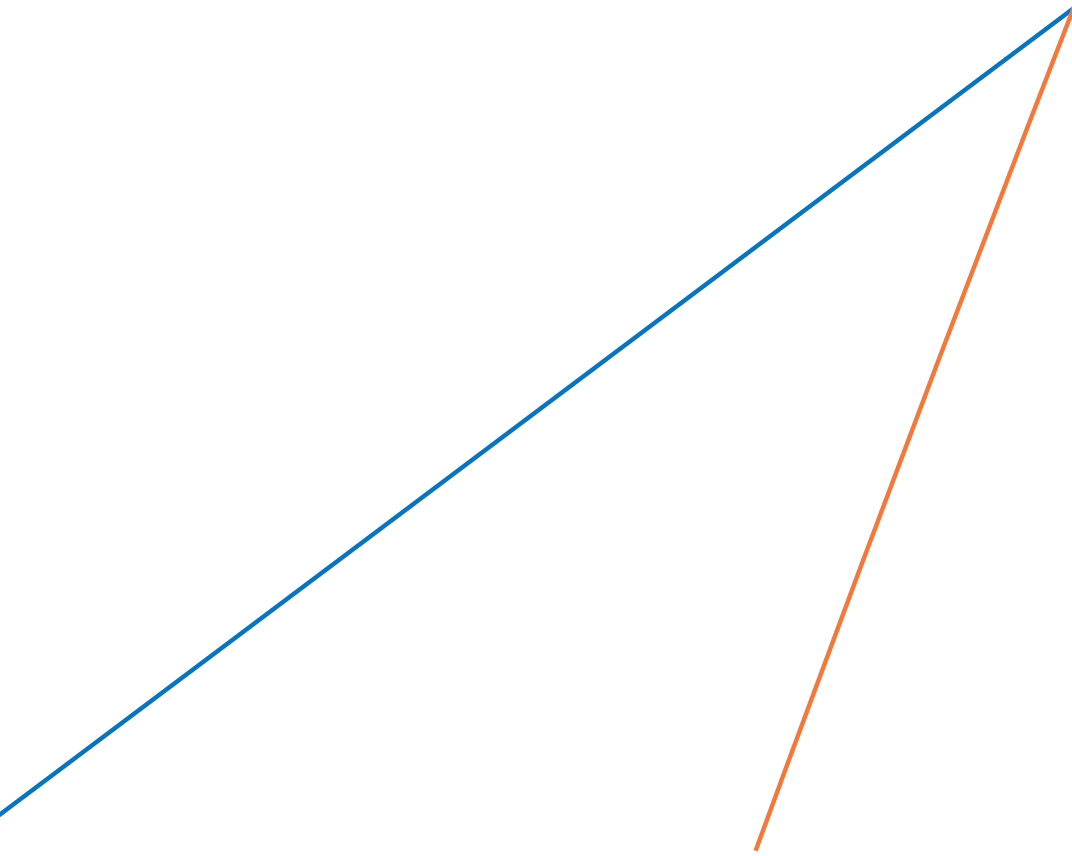

## Our Subsidiaries

### The Arab Advance for Construction

Since its establishment in 1990, Arab Advance for Construction has delivered over 500 projects, ranging from housing to commercial and industrial facilities.

Since 2000, we have specialized in prefabricated building systems using Siporex technology — a revolutionary material offering thermal insulation, fire resistance, and sustainability.

## Our Expertise

- Prefabricated Buildings:  
Lightweight, durable, and energy-efficient systems.
- Siporex Construction:  
Wall panels, slabs, and blocks with superior insulation properties.
- Hollow-Core Slabs:  
Large-scale installations for residential, commercial, and industrial projects.
- Turnkey Project Execution:  
From concept to completion, ensuring quality and compliance.

## Why Choose Us

- Proven track record with 500+ successful projects.
- Strong compliance with Saudi Building Code and global standards.
- Dedicated team of qualified engineers and project managers.
- Sustainability-focused solutions with long-term value.

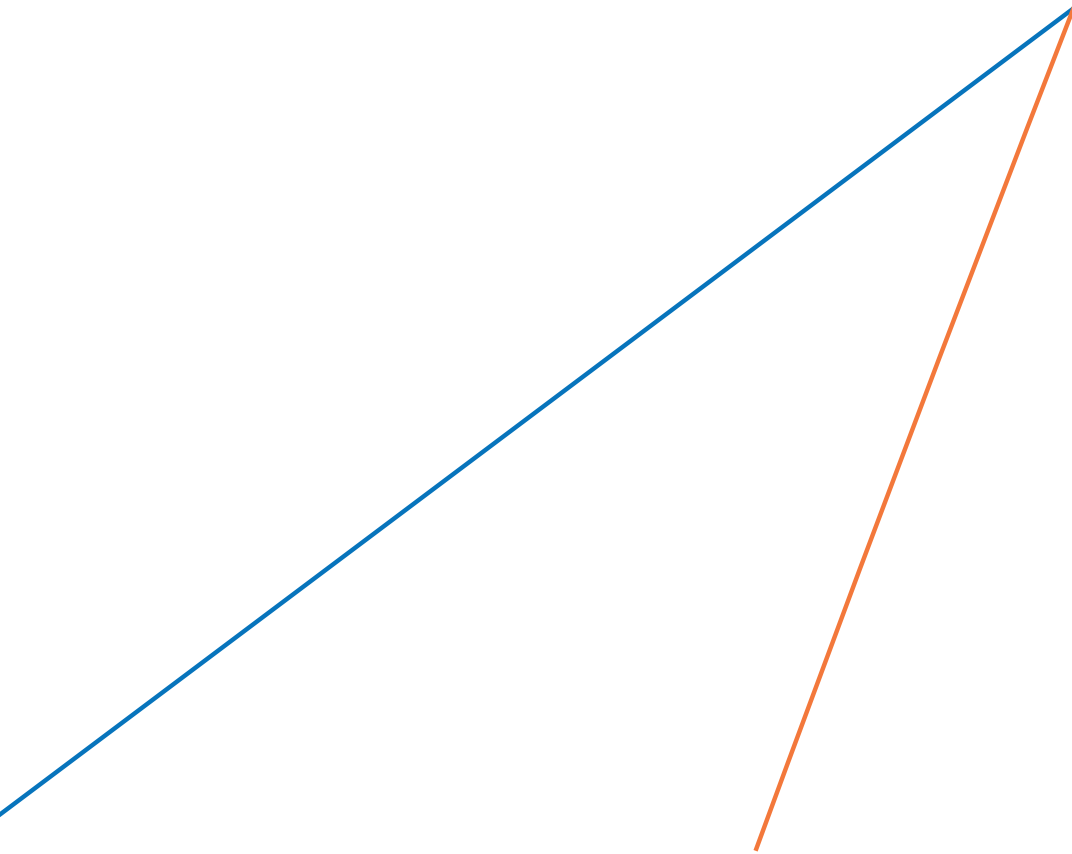

## Our Subsidiaries

### The Arab Advance for Fire & Safety

At Arab Advance for Fire & Safety, we specialize in life-safety systems that protect people, property, and operations. Working in accordance with Saudi Civil Defense requirements and global quality standards, we deliver design, installation, certification, and maintenance of fire detection, alarm, and suppression systems.

## Our Services

- Installation of fire alarm, suppression, and smoke ventilation systems.
- Civil defense approvals, certificates of compliance, and regulatory documentation.
- Periodic preventive maintenance and system upgrades.
- Gas network design, maintenance, and safety solutions for homes, restaurants, and factories.

## Our Edge

- Adherence to international fire safety and environmental standards.
- Trained specialists equipped with state-of-the-art tools.
- Reliability, responsiveness, and compliance in every project.

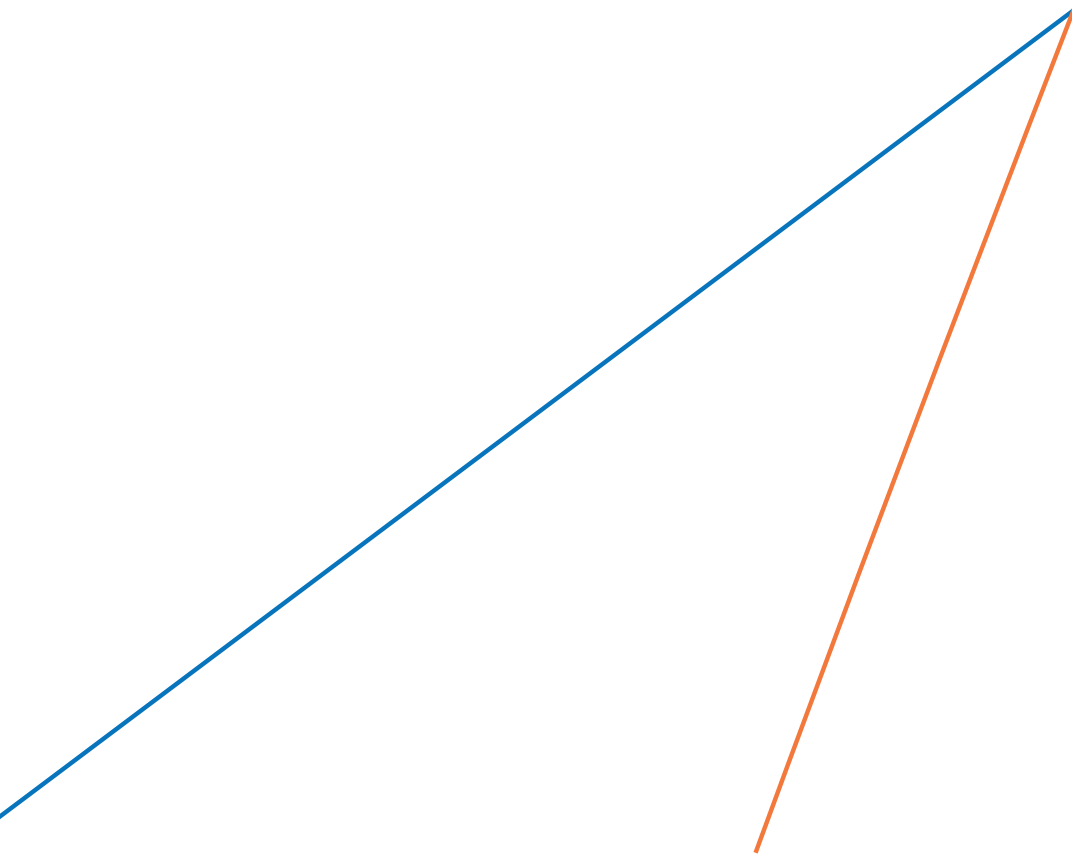

# Our Subsidiaries

## The Arab Advance for Plastic Recycling

Our newest division reflects our commitment to sustainability. Arab Advance for Plastic Recycling transforms waste into high-quality raw materials that serve diverse industries. With advanced processing capabilities, we supply LLD granules and recycled plastics used in packaging, conduit manufacturing, and industrial applications.

## Capabilities

- Recycling and processing of plastics into reusable raw materials.
- Production of high-quality LLD granules for manufacturing industries.
- Supplying eco-friendly alternatives that support the circular economy.
- Reducing environmental impact through responsible recycling practices Impact.
- Promoting resource efficiency in manufacturing.
- Supporting government and private sector sustainability initiatives.
- Creating new opportunities in the green economy.

# Our Clients

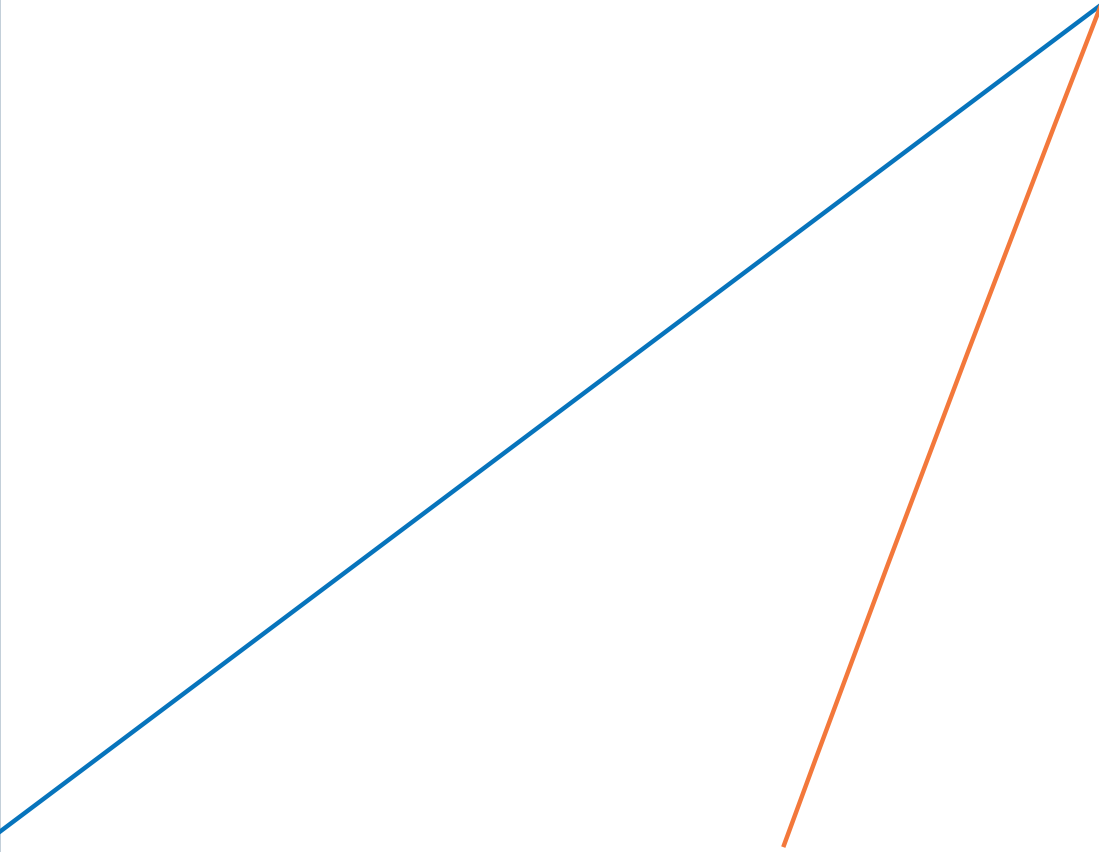

Over the years, Arab Advance has built strong, long-lasting relationships with a wide range of clients across the Kingdom of Saudi Arabia and the wider Gulf region. Our clients trust us for quality, reliability, and value, and we take pride in being part of their growth and success.

## Our Client Base Includes:

- Government Entities – public infrastructure, safety, and regulatory projects.
- Construction & Contracting Firms – large-scale residential, commercial, and industrial developments.
- Industrial Facilities & Factories – tailored solutions in trading, supply, and recycling.
- Retailers & Wholesale Distributors – building materials, electrical, plumbing, and sanitary supplies.
- Hospitality & Commercial Developments – hotels, malls and mixed-use complexes.
- Healthcare & Education Sectors – hospitals, schools, and institutional facilities.

## Location & Contact Details

We are strategically located in the Eastern Province of Saudi Arabia, enabling us to serve clients efficiently across the Kingdom and the Gulf region.
