Coronavirus Delays Cliftonpark Avenue Appointment

The Northern Ireland Housing Executive (NIHE) has been unable to finalise the selection of a developer for the open green space site bounded by the Crumlin Road, Cliftonpark Avenue and Landscape Terrace due to the Coronavirus crisis.

The site was put up for sale on the open market in January 2020. Following the submission of development proposals and financial offers for the site by potential purchasers, a developer was selected. This selection now has to go through an NIHE internal approval process.

This includes consideration of the decision by the NIHE Regional Clearance House. Due to the cancellation of the April and May meetings of the Clearance House due to Coronavirus, June 2020 is now the earliest date for consideration of the appointment by the group.

Once approved by the Regional Clearing House, the decision then goes to the NIHE Chief Executive’s Business Committee. If it passes this stage, a sale agreement will be signed by the NIHE and by the selected developer. This is the final stage and the point at which Lower Oldpark Community Association will learn the name of the appointed developer and what their development proposals are.

If the appointed developer needs planning permission, it could be over a year before work begins. If they already have planning permission, work should be able to start quite quickly.

LOCA Housing Advice Service

Lower Oldpark Community Centre temporarily closed on 23rd March 2020 because of Coronavirus.

As a result, the Lower Oldpark Community Association (LOCA) Housing Advice Service provided by the Housing Project Worker is no longer available on a face-to-face basis.

However, the service continues to be available by:

- Mobile: 07713990976
- Email: loweroldparkhousing@gmail.com
- Facebook (private messaging): (@loweroldparkhousing

Providing a housing advice service at this time is more difficult than usual. In many cases, only basic services are being provided by Government and public bodies. Many staff members are working from home and this can make contacting them difficult. The Housing Project Worker will do his best to deal with all advice requests made.

House Building Restarting

Building work on the new housing at the junction of Oldpark Road and Cliftonpark Avenue is expected to restart on 27th April after stopping in March due to Coronavirus. This was the latest news at the time Housing News Lower Oldpark went to print on 24th April.

The contractor for the scheme, Brendan Loughran, went off site because building supply companies temporarily shut down due to Coronavirus. Unable to obtain more bricks, the brick layers couldn’t continue working.

The contractor will be returning to the site with a reduced workforce that will be following the Government’s social distancing rules. The Coronavirus will delay completion of the scheme but the contractor is hoping for completion by Christmas 2020, subject to Coronavirus restrictions.

Radius staff won’t be carrying out home visits until further notice.

NIHE Won’t Be Lifting Dumped Rubbish

The Housing Executive (NIHE) won’t, at the present time, be lifting rubbish dumped on walkways it is responsible for in Lower Oldpark.

This is because, at this time of Government Coronavirus restrictions, the NIHE is only carrying out emergency work.

The NIHE said it won’t be removing the large amounts of material that has been dumped in Lower Oldpark until it returns to carrying out non-emergency work. There is currently no clear date when this will be.

NIHE Grounds’ Maintenance Restarting

The Northern Ireland Housing Executive’s grounds’ maintenance contractor hopes to start working again in North Belfast on 27th April 2020.

They will be concentrating on cutting grass and lifting litter.

Up until this date, the contractor will continue to only provide an emergency service where there is a risk to life. This restricted service is a result of Coronavirus.

Dumping Is Anti-Community Behaviour

Lower Oldpark Community Association is asking residents not to dump rubbish and unwanted household items on open spaces, the street or walkways in the Lower Oldpark neighbourhood.

Coronavirus is making life difficult for everyone, so please don’t make it harder and more dangerous by dumping. Dumped material spreads disease and creates a hazard for everyone, but especially for the elderly, disabled and children.

Bathroom Kitchen Scheme Delay
The start of work on Phase One of the Housing Executive’s (NIHE) Lower Oldpark Bathroom/ Kitchen Replacement Scheme has been delayed due to Coronavirus.

A NIHE representative advised that it will contact tenants affected by the scheme as soon as it can start moving things forward. This will depend on advice it receives from the Government on the Coronavirus restrictions.

Courts’ Project Delayed
Work on the appointment of a contractor for the Courts’ Project environmental improvement work in seven Lower Oldpark’s shared surface courts has been delayed due to Coronavirus.

The courts affected by the scheme are Foyle, Shannon, (plus 1-11 Shannon Street), Bann, Liffey, Bandon, Manor and Southport.

Social Housing Scheme
Due to Coronavirus, there is no update on the completion of plans for the social housing scheme on the site running from Manor Street to Alloa Street and to the former Annalee Court.

Also, the company that has to carry out an essential CCTV survey of drains on the site currently isn't operating due to Coronavirus.

A further obstacle to progress is that Belfast City Council Planning Department currently isn't accepting new planning applications.
