

# SHIFTING THE LENS OF TEACHING RELEVANT AND ENGAGING INSTRUCTIONAL SUPPORT

## Professional Development

### PLCS

We offer Virtual and Face to Face PDs and workshops to support math content. PLCs are strategically structured around individual campus data and campus goals.

## Data Driven Instruction

### BEST PRACTICES

Data coaching to create intervention plans and build in scaffolds to close conceptual gaps. Fostering higher order thinking and collaboration on ways to communicate content to build student understanding.

## Planning Sessions

### BACKWARDS DESIGN

Plan with the end in mind by analyzing assessment items and determining what students need to know. Support with lesson plans and lesson delivery (facilitation).

## Capacity Building

### INSTRUCTIONAL COACHING

Supporting teachers with classroom management, checking for understanding, student engagement, and best instructional practices to facilitate an ideal learning environment.

## Small Group Support

### ADDRESSING MISCONCEPTIONS

Small group facilitation: differentiation, anchoring student learning, and supporting scholars with making mathematical connections.
