The LUBE USA Pro Late Model getting ready to hit the track! Noah will be racing this at the Dells Raceway Park for the 2023 racing season going for the Championship title!

The Season is just around the corner!

We have been very busy over the last several months getting ready for the upcoming race season. We have made a number of improvements to our asphalt car. Over the off-season we have made updates to the Toyota NextGen body on the chassis as well as a fresh graphics.

We also rebuilt the 3-speed transmission with lightweight components that were MicroBlue finished by Colberg Hi-Performance Tractor Repair. This will help shave

time off our qualifying efforts and ensure we run in the Top-16.

We are also working on some prototype suspension pieces that will hopefully be an edge over the competition! We will be testing this concept out in a few weeks. We are trying to get every little bit of speed out of this car!

We want to Thank everyone that contributed to our off-season rebuild and for your on-going support and generosity!
