EMPLOYMENT HISTORY

2019 to Present Solis Marine Consultants, Singapore
Marine Consultant, Master Mariner

He brings his significant experience as chief officer and cargo superintendent on all aspects of heavy lift vessel operations world-wide. This has included the planning, loading, securing, transportation and discharge of all types of heavy and oversized project cargo. As master, he has had command on a wide range of vessel types and was engaged in worldwide delivery voyages.

His experience as a surveyor has included the investigation of navigation incidents, cargo and machinery issues on behalf of owners, charterers and insurers. He also has wide experience with Marine Warranty Surveys (MWS), recent work has included suitability surveys of vessels and barges, shipment of various project cargo, dry transport of floating units, transportation of FPSO modules and the relocation of container handling port infrastructure including quay cranes and RTG's.

2012 to 2019 Hansa Heavy Lift Asia Pte Ltd - Singapore
Cargo Superintendent/Port Captain

Providing technical support to the commercial team commencing with preliminary transportation feasibility studies through to the full coordination of the planned operations on-site and onboard the vessel while in port. These operations included:

- Cargo quality (damage- and loss prevention)
- Stowage planning and monitoring of vessel performance
- Supervising and coordination of vessels during loading and discharging operations
- Providing technical advice and support to the commercial team
- Operational HAZID- and technical meetings
- Liaising with stevedores, agents, lashing companies, MWS and other all other parties involved with general cargo and project cargo damage, hull failure, stability problems and anchor damage to subsea pipelines

2006 to 2012

Redwise Maritime Services B.V., The Netherlands

Chief Officer and Master, On-site ship delivery superintendent/marine surveyor

Chief Officer and Master, on a wide range of vessel types engaged in worldwide delivery voyages. On-site superintendent for delivery projects assisting client/owners with the vessel's final acceptance and as marine surveyor carrying out inspections of vessels and cargo on behalf of owners, charterers and insurers. Assisting owners with coordination of repairs, modifications and a range of vessel surveys.

2000 to 2006

Jumbo Shipping (Kahn Scheepvaart B.V.), The Netherlands

Apprentice to Chief Officer

Experience gained on board the company's 'E', 'G' and 'H' class vessels with double heavy lift mast crane's or mast crane/derrick combination having combined lifting capacity of up to 800 tonnes WLL. Cargoes carried includes offshore equipment, reels and hubs, windmills, cargo/dredging/passenger vessels and yachts, ship unloaders (partial and fully assembled), train locomotives, coke drums, power plant equipment, diesel engines and gas turbines, transformers and their associated breakbulk cargo.

1995 to 2000

WeCo Motorsloepen, The Netherlands (part time - aside of his studies)

Gained experience in the sales, marketing, after sales, maintenance and repair of polyester pleasure crafts. This work included the preparation and polishing of boat coatings for showroom and delivery to owners, seasonal maintenance, engine maintenance, polyester repairs and modifications.
