BUSINESS EXPERIENCE

DELIVERING ON-TIME, ON BUDGET, QUALITY RESULTS

- Successfully oversaw greenfield expansion and acquisition resulting in doubling of the segment's revenue
- Led growth initiative to provide an additional \$2M in annualized revenue to the company
- Numerous operational cost savings projects have achieved 15%-25% improvements in key indicators
- Created a strategic plan for an existing Manufacturing line, leading to a successful upgrade, transition and build out overseas

BUILDING INSIGHTS INTO AN ORGANIZATION'S PERFORMANCE

- Led 2 Operational teams through a growth phase and introduced more formal tools: Balanced Scorecards, KPI's, Operating systems, to achieve and drive success
- Continued to leverage my IT background to create analytical tools to sift through data warehouses and identify cost and growth opportunities
- Led a strategic review of the company's operations and presented a go forward plan to streamline

CROSS SECTOR EXPERIENCE

- Able to port best practices across a variety of industries
- Ability to ramp up in any industry or role rapidly to deliver expedited results
- Ability to leverage IT background to facilitate communications and solutions between IT and Operations
- Manufacturing experience – IT, Food, Aerospace, Hydraulics
- Experience in Telecommunications, Call Centers, Health Care
- IT knowledge includes: development, networking, ERP's
- Significant leadership overseeing teams of 250 people
