

FIREWORK SAFETY GUIDELINES

To ensure your fireworks experience is safe and enjoyable for everyone, follow the manufacturer's instructions printed on the fireworks label. In addition, follow these recommended guidelines:

Safety Guidelines

1. Be knowledgeable of the fireworks rules and regulations in YOUR particular region.
2. To meet the highest safety standards possible, always purchase your fireworks from a reliable fireworks dealer.
3. Ask the fireworks dealer any questions you may have so that you fully understand the product's directions.
4. Only adults over the age of 18 should be responsible for handling fireworks.
5. Only light one firework at a time, away from your face or body.
6. DO NOT SMOKE when lighting fireworks.
7. When lighting fireworks using safety eye glasses is recommended.
8. Only discharge fireworks outside and far away from combustible materials.
9. Always keep a hose or pail of water nearby.
10. Make sure onlookers are at a safe distance as outlined on the firework's warning label.
11. Do not attempt to re-light a 'dud'. Place them in a pail of water for 30 minutes before disposing.
12. Upon completion of your fireworks show, **wait 30 minutes** to dispose of any used fireworks and fully clean up the area.
13. Always read the warning label in it's entirety!
