

# Get Ready for Limitless Opportunities

Experience transformative programs that empower growth, foster wellness, and drive economic advancement for individuals with a developmental disability and their families.

**MISSION:** To empower every individual to pursue a life of choice, integration, and limitless opportunity through transformative pathways that drive economic advancement and sustained success.

**Always You ImpactWorks** provides **In-Home and Community Support, Community Participation Support, and Supported Employment** in alignment with each individual's ISP. Through our exclusive partnership with the **Community College of Beaver County (CCBC)**, most services are delivered on campus, offering participants a professional, integrated setting that reflects adult life. This experience fosters belonging, strengthens real-world readiness, and affirms each person's place in the community.

**Always You Affairs** launching in **September 2025** in the **Titan Café at the Community College of Beaver County**, this experience curates themed events that inspire connection, learning, and celebration. Each gathering fosters authentic relationships and creates moments that enrich individual growth and community engagement.

**Always You Caregiver Academy** equips families with knowledge, tools, and direct support to navigate systems, participate in IEP and ISP planning, and make informed decisions. Each session builds confidence, reinforces resilience, and centers the well-being of both the individual and those who support them.

**Pillars of Excellence** is the foundational framework behind every **Always You** program. It defines our approach and reinforces each participant's direction forward with purpose.
