

Professional Development Plans

ADVANCED PLAN / SINGLE SESSION PD

(Advanced Plan / Single Session)

For districts / schools who want more than the free webinars and question & answer support that the basic plan provides, the advanced plan provides a deeper level of training with specific PDs that focus on implementation.

These PD's are custom made and based on a district's needs. If a district communicates they need support on how to create lessons from the data, a PD will be created on how to use the materials and plan lessons. These PD days are not generic overviews of the programs, but deep dives into the fine details where teachers will see the programs come alive.

90 Min Session \$350 per session

150 Min Session ½ day \$550 per session
