Activities for Numeracy Readiness
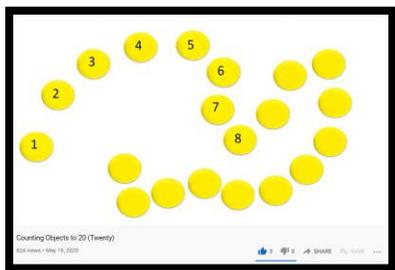

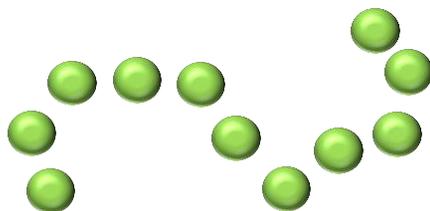

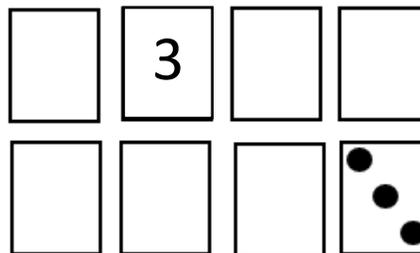

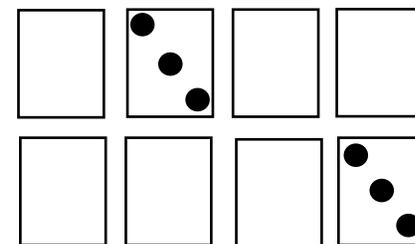

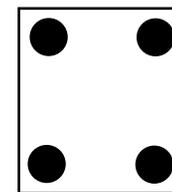

Oral Counting	Counting Items One to One	Numeracy Identification	Subitizing Patterns
Count on a Number Line (Touch each number as you say it)	Present connected cubes and count by ones.	Flash number cards and ask what number.	Have students roll foam dice and identify how many.
Calculator Count (+, +, 1 =)	Present unstructured patterns and count.	Count cubes then match the quantity with a numeral card.	Have student play memory with subitizing dot patterns.
Counting Videos (YouTube)	Present a pile of unconnected cubes and count one by one.	Match dot cards with Numerals	Flash dots pattern and have students' identity. (*1/2 Second flashes*)
Count on a Number line (Covered) (Before and After)
