

PIT CRÜE

Kevin "Intake" Manifold, Crew Chief

Keyboards/Guitar/Mandolin/Melodica/Harmonica/Percussion/Back-up Vocals.

Manifold has been driving since the tender age of 4. Due to poor driving, lack of mechanical skills, and the price of gas, he became a musician. Requiring the ultimate in performance, Kevin currently drives a 1979 Ford Grenada, and can whistle in 6 different languages.

Michael "Catalytic" Moore Utility Man

Vocals/Guitar/Harmonica/Percussion/Back-up Vocals.

Catalytic's mother went into labor while attending the Daytona 500 and gave birth to the Pit Crüe vocalist. As a toddler his first words were, "RRrrrrrrrrr."

Michael drives a moped and makes authentic Formula 1 vehicle replicas out of leftover cheese.

Dash B. Oard Car Chief

Drums/Percussion/Back-up Vocals

Dash is perhaps the fastest driver of Pit Crüe, with his current vehicle of choice being a Ford Crown Royal police car, usually in the back. An expert drummer and driving force of Pit Crüe, Dash has complete independence with all 7 limbs. Dash loves Thai food and slow walks on the beach.

Allison "Pitstop" Andretti Tire Changer

Vocals/Guitar/Percussion

A perfect fit for Pit Crüe, Pitstop's voice can cut through even the loudest HEMI motor. Her first live performance was at age 7-in the Saginaw Classic Car Show where she sang a duet with a '69 Mustang. For 2023, Allison can be seen touring solo at an O'Reilly Auto ParAuto Parts near you. Allison takes the bus.

Todd "Gas Cap" Granacki Jack Man Shred Guitar

Gas Cap shreds both on and off the race track, preferring to drive through exclusive neighborhoods behind the wheel of his custom Zamboni. Originally the fashion designer for Gandi, Todd left a life of luxury to pursue his career in competitive golf cart racing, holding the golf cart land speed record of .03 mph. Todd is so into driving that his toilet has a steering wheel and gas pedal. No one really knows what his toilet gas pedal does nor should anyone want to.

Bill "K.A.R.S. Kars for Kids" Kay Gas Man Bass and All Things Low
