

Compensation

I get paid when you get paid meaning there are no up-front fees when I list your Florida Business for Sale. I provide my time and services to you based on my conviction that I will be able to sell your business.

My pricing model is based on the Double Lehman scale. The Double Lehman Scale pays a commission of 10% on the first million, 8% on the second million, 6% on the third million, 4% on the fourth million and 2% for any amount in excess of \$5 million.

The amount you pay all depends on the final purchase price of your business, which I make every effort to maximize
