Group Family Theraplay®

Theraplay® Training for Adopters
& Carers

Mountain Bike Coaching to Build
Emotional Resilience

The Training Program will include:

What is Theraplay®?

Understand the specific needs of children who have adverse childhood experiences.

Intensive Group Family Theraplay®

When the needs of young people for **structure, engagement, nurture and challenge** are attended to, the young people begin to internalise this experience and extend it toward others spontaneously. The Theraplay® Group is an adult-directed, structured group that incorporates playful, cooperative and nurturing activities that enhance emotional well-being.

Learn about resilience and helping children heal.

Taking Theraplay® Home!

Mountain Bike Coaching

Working in conjunction with Northern Downhill, the young people will be provided with coaching built around the Theraplay® model. Coaching is provided by qualified coaches with significant experience in mountain biking and working with young people who can experience some challenges in their behaviour. Coaching follows the Theraplay® model.

Location:

Chopwell Woods, Gateshead. *We can recommend local accommodation if required.*

Dates:

October 2020 half term (26th-29th)
From 10:30 to 16:00.
