# What tools do you have to check student progress?

During Distance Learning we are doing all we can to keep student and parents in communication as much as possible.

Today we will talk about two Online Portal tools parents will be able to use to check academic progress

- Studenttrac Parent Portal

- Edmentum Sensei

# Introducing Parent Portal by Studenttac

**StudentTrac**  
**PARENT PORTAL**

## What is the Parent Portal?

A new way for parents to engage with teachers and students, and take a glimpse into the day to day activities of their student's academic program.

Our parents will have access to see Guides, External Assessments, Calendar, History and Student Forms. This will facilitate parent and student dialogue on student progress.

# Parent Portal Use: Access & Navigation

## DIGITAL PROGRESS REPORTS

Parents can view a student's overall course and unit grades including credit completion progress on a monthly basis. Got something to say? A comments area is also available to parents, students and teachers to share feedback on each report.

## PLANNING GUIDE SNAPSHOT

Introducing a one stop shop to view a student's overall academic standing and program progress... The Portal's easy to read Snapshot view offers a quick glimpse into GPA, credits needed to graduate, required subject fulfillment, and much more.

## STATE ASSESSMENT RESULTS

Standardized test scores are now only a few clicks away. The Portal includes summarized and detailed test results in digital form -- that means no more waiting for paper mail results!

## STUDENT FORMS & REGISTRATION

Parents can review course summaries/methodologies for a student's course load, including any recently completed enrollment forms. Coming in the Spring 2020, parents will be able to register their students and sign re-enrollment documents straight from the Portal - at home or on the go - anywhere!
