What is it?

iLit ELL is a fully digital ELD curriculum that is accessible on multiple platforms.

Users can access the program on their tablets or through a web browser on their personal computers.

iLit ELL uses cloud-based sharing to enable back-and-forth functionality between teachers and students.

Each day, students read, write, speak, and listen; they work to develop the skills necessary to achieve English proficiency as well as college and career readiness.

WRAP UP

iLit ELL uses a gradual release approach to instruction, which includes established daily lesson routines that move students toward the independent application of skills.

Incorporates a Sheltered Instruction Observation Protocol—or SIOP® —which is a research-based instructional model that has proven effective in addressing the academic needs of ELLs.

Lesson Design

Block 1, students explore the Time to Read, Vocabulary, Whole Group, and Work Time lesson segments.

The following day:

Block 2, students use the Vocabulary, Read Aloud, Think Aloud, Classroom Conversation, and Work Time lesson segments.

Daily 45-minute teaching blocks

Instructional model is broken into two teaching blocks

Assessment

GRADE:

Uses the Group Reading Assessment and Diagnostic Evaluation—or GRADE™—as both a **diagnostic assessment** for placement and an **independent measurement of reading growth.**

Includes: Lexile, Grade level equivalency, vocabulary growth, reading comprehension, writing growth, and listening comprehension

Reading Checks/Interactive Readers:

Reading comprehension checks throughout the unit

Interactive readers track lexile growth- short & high interest
