Call or Text Logan Hoffmann at (701) 388-2618

VIDEO AUCTION

This will be a video sale with no animals entering the ring. All the sale cattle will be available for live viewing prior to the sale. Videos will also be available online at vollmerangus.com or dvauction.com

TRUCKING

Load up your bulls via our drive thru load-out on sale day, or within one week of the sale and receive \$100 for each bull purchased. If you pick up your bulls at the ranch before May 1st we will offer a \$50 discount per bull. Or, leave your trailer at home and we'll deliver up to 500 miles at no cost to you. We just ask that for bulls purchased outside of ND that you would please be willing to travel to central drop points to make delivery feasible and avoid cattle being in transit for too long a time period.

BREEDING GUARANTEE

All bulls guaranteed against injury throughout the first breeding season. If a suitable replacement bull is not available when needed, credit will be issued for next year's sale.

SIGHT UNSEEN PURCHASE GUARANTEE

We guarantee the bulls will be as described and to your liking, or you don't own them.

VOLUME DISCOUNTS

Volume Discounts will be offered starting at 3 Bulls - 3% and increasing 1% for each additional bull up to 10 bulls - 10% maximum discount.

REVENUE SHARING

Vollmer Angus is reserving a 1/3 revenue sharing semen interest in all bulls.

**THE CATTLE ARE AVAILABLE FOR VIEWING PRIOR TO THE SALE.
WE WELCOME YOU TO STOP BY ANYTIME.**

Welcome

Welcome to our 49th Annual Bull Sale!

As we prepare for another production sale, we're proud to offer a set of performance cattle that reflects decades of disciplined breeding, practical selection, and a commitment to the kind of cattle that work for realworld ranchers. The 2026 offering is the product of a program focused on structural integrity, maternal strength, longevity, and the kind of performance that pays in every segment of the beef industry.

This year's group stands out for its consistency from top to bottom. Whether you're looking for calvingease genetics, added growth, or bulls built to leave behind a powerful set of replacement females, you'll find options that fit your goals. We continue to emphasize multi trait excellence—cattle that thrive in our environment, convert forage efficiently, and stay sound and productive for years. Cattle that can have a positive impact on your bottom line.

We're grateful for the trust our customers place in our program. Many of you have been with us for generations, and your success remains the driving force behind every breeding decision we make. We don't take that responsibility lightly. The bulls in this sale have been developed with longevity in mind, grown on a sensible ration, and evaluated carefully to ensure they're ready to go to work in their new homes.

As always, we welcome your calls, questions, and visits. We enjoy talking cattle and helping you identify the bulls that best match your herd and your longterm goals. Thank you for your continued support of Vollmer Angus. We look forward to seeing you on sale day and having you evaluate this offering of bulls and females, built for the future of the beef business.

Thanks again and hope to see you sale day!

Separation came to us from the Boyd program, a program known for raising cattle that excel in multi-trait superiority. Separation is proving himself to be a great sire. He consistently produces progeny that excel in all traits of beef production. This sire group is deep, wide, full of muscle, lots of performance, with exceptional structural integrity. They are truly built right from the ground up. The maternal side is just as powerful. His dam is one of the top young donors in the Angus breed, being a high income generator and producer of high quality individuals. I have great admiration for this sire group. They represent the kind of cattle I like to raise. They are production and maternal orientated, yet can make a significant improvement to carcass quality, all while being built correctly in a truly functional design that can thrive in our environment.

No better way to start the sale than with lot 1. He was the lead off bull in our reserve champion pen of three bulls for a reason, the presence he carries himself with. He has the look, power, balance, depth, rib shape and skeletal build of a herd bull. He also has all the figures to go with it. 92 WW, 157 YW, 325\$C, 1.1 Marb, 1 RE, 79 CW along with double digit HP and DOC. The mother, VAR Sophie 1156, is a very impressive, balanced female that is bold ribbed, nice fronted with a beautiful udder. She breeds the first round and never misses a beat. This bull is one of the best bulls to ever have the VAR prefix. Partition will be used heavily in our herd this upcoming summer. We think this one could do some big things in any cowherd!

Vindication is a flush brother to Separation and has also done a great job for us as a breeding bull. A very impressive individual who produces cattle that are very similar to Separation in their type and kind. The multi trait superiority that he produces is admirable for all facets of the beef production cycle. From birth to the rail these cattle will excel. All while producing great, maternally orientated replacement females. Not often do you find such consistency from flush brothers like these two have provided our program. A true testament to the rich pedigree ancestry that they possess. I am very excited about their contribution to our program.

Vindictive got his name on May 30th 2025 because I felt he was that good. He was the anchor bull in our pen. He is deep, stout, long necked, clean fronted, good footed, easy moving and likes to show off. He is in the top 20% for 14 EPD categories. 336 \$C, 208 \$B, 1.25 Marb, 1.2 RE, 76 CW and top 3% for angle. Double digit HP and DOC. Along with that he has got one of the most impressive mothers in Rocking H Layla 2142. She is long necked, tight throated into a big middle. She has been a champion in the showing but making an even bigger stamp in production. The grandmother, VAR Lady 5243 is what her picture shows. Powerful, but nice fronted and is just a beast of a cow. Vindictive will see use here in our program.

ROCKING H LAYLA 2142

VAR LADY 5243

\$ VALUES

\$M VALUES

DOCILITY
 FUNCTIONAL LONGEVITY
 FOOT ANGLE
 CLAW SET
 MATURE WEIGHT
 MILK
 HEIFER PREGNANCY
 CALVING EASE MATERNAL
 WEANING WEIGHT
 CALVING EASE DIRECT
 UDDER SUSPENSION
 TEAT SIZE

\$M - THE BOTTOM LINE

If you retain your own replacements, \$M is a crucial figure to consider. It serves as a comprehensive metric for evaluating cowherd longevity, efficiency, and maternal strength.

A higher \$M means a bull's daughters are more likely to:

- Breed up on time
- Raise a good calf each year
- Stay sound and functional longer
- Cost less to maintain (reduced cow size, fewer issues)

Over time, this translates to more profitable, lower-maintenance cows in your herd.

\$B VALUES

DRY MATTER INTAKE
 YEARLING WEIGHT
 CARCASS WEIGHT
 FAT
 RIBEYE AREA
 MARBLING

\$B - THE BOTTOM LINE

If you retain ownership, sell calves on a grid, or market reputation feeder cattle, \$B is a powerful terminal tool. It summarizes how your calves perform where it really counts, on the scale and on the rail.

A higher \$B means that, on average, a bull's calves will:

- Gain faster in the feedlot
- Eat less per pound of gain
- Grade better (more Choice and Prime)
- Yield more usable pounds of beef

That means more post-weaning value per calf, particularly if you retain ownership to the rail.

\$C VALUES

\$C - THE BOTTOM LINE

\$C is the most balanced, big-picture index Angus provides. Use it to find bulls that deliver maternal dependability and terminal value, especially if your operation spans multiple segments of the supply chain.

A high \$C bull is likely to sire:

- Daughters that breed early, raise good calves, and last longer
- Steers that gain well, convert feed and hang valuable carcasses In other words, \$C helps identify bulls that do it all, and help your operation make money in both the pasture and feedyard.

$$\$M + (1.297 \times \$B) = \$C$$

The power bull in the pen. We feel this bull is the densest bull in the offering. He is stout everywhere; with a huge center body and a wide, big top into a giant rear end and carries it all the down to his rear quarter. All this power and density in a heifer bull package, how often does that happen? He is a 10 CED and a .4 BW EPD, 90 WW, 155 YW. Along with being calving ease, he is in the top 10% for claw and angle a 319 \$C, 77 CW and a double-digit HP and DOC. When it comes to his mother, VAR Hope 2070, they are 2 peas in a pod, power, power, power. She has a big rib cage and a sleek neck and a beautiful udder. She is the best Galactic daughter we have in production. The Grandmother VAR Hope 894 has put bulls in the sale and clearly put that potent cow power into her daughters! He will see use on our heifers in a major way.

Enlist has been our main calving ease bull for the last two years, and he has certainly done a more than admirable job. The Enlist calves are born easily with great vigor yet really grow and perform. For calving ease cattle they develop into high performing, wide bodied cattle that are easy fleshing and productive. Enlist comes from one of the top dams at Chestnut Angus where she is admired for outstanding udder quality. As we are calving our first Enlist daughters, that udder quality is coming through in a major way. Enlist is a definite udder improver!! They are also excellent mothers with great foot quality and ideal dispositions. I am more excited than ever about the contribution this sire is making to our program. Most bulls, a person loses enthusiasm for as they age, but Enlist is just the opposite. A true testament to the kind of females he is making for our program.

Muscle Man! Moderate and stout, but this one can still get out and go with the best of them. This one catches your eye all the time because he is just that stout. He has a full brother that's 2 weeks old that's following his footsteps! This cow has been a favorite of mine just a good stout, moderate, good-looking cow that is always calving in the first cycle.

This is a very unique individual. He is double bred to the female maker Confidence Plus yet is a big-time growth bull. His HP EPD also ranks in the top 10% of the breed and has a stellar set of maternal EPD's across the board. Also, his marbling EPD is in the top 10% of the breed – put all this together and he is in the top 2% of the breed for \$C. Growth, carcass, and maternal all in one superior breeding bull truly makes this Wildcat son the "Big Kat" But the most impressive part of this bull are the high quality individuals he produces. There is an outstanding set of bulls in this sale by Big Kat. They are full of performance and if you are looking for more length and skeletal extension in your next calf crop, be sure and look up this sire group.

VAR SOPHIE BRIDGETT 5119 • DAM OF LOT 12 • TAKEN AT 10 YEARS OF AGE

Starting off the Big Kats with Lot 12. He is long, good looking, square, round ribbed and walks like a Kat! 11 CED, .5 BW, 86 WW, 163 YW, 18.3 HP and a 307 \$C, figures like this make him a herd bull prospect. Now here is what makes this bull so unique and it's his mother, VAR Sophie Bridget 5119. She is a cow that is near and dear to my heart as the matriarch in the last decade of the bull sale. She has never had a heifer calf but has had a bull calf start many sales and her track record is good! Just ask the guys out at Stevenson Diamond Dot in MT. They own VAR Galactic 1469 a direct son of 5119 and a past sale topper!

Yes, we know this is not an Angus bull but if we were color blind we wouldn't be able to tell the difference. He is stout, rugged, deep, big footed, sound, long and balanced with a RED NECK! Heavy pigmented bull that could make some awesome baldies. His mother is a cow that comes from Pelton Herefords in Halliday she is dark red, deep bodied, long cow that has a beautiful udder when she calves.

THE PICTURE BULL! We think a lot of this bull, so much, that we used him cleanup on Claytons cows this past summer. We are excited to see those calves. He is good looking, long, sound, wide, big ribbed and balanced. He has that herd bull look with the extras in terms of muscle shape down his quarter and forearm! His mother is a cow Clayton owns with Mrnak Herefords in Bowman. She is long bodied and athletic with a great udder.

SIRE OF LOTS 41, 42 & 43

VAR BLACK C LASS 2098 • DAM OF LOT 44

Come back to the yearlings ladies and gentlemen. Here i is one of the best bulls to be born here and rightfully so. He is the one that could sire some elite females that could go on and do some winning in the show ring. He is cocky, big middled, level hiped, square butted, shapely and a plow horse when it comes to just overall power and mass! Elite Angus heifers or show steers, this one can do that. There's no telling the kind of herd sire he could be. VAR Black C Lass 2098 is a Whitewater daughter that is beautiful to look at. She is long and sleek necked with a long spine and deep bodied cavity! She is one that is easy to find in the herd.

Lot 45 and 46. Now here is the pair that I've been waiting to talk about. "The 2266's" yes that's correct these bulls are TWIN BROTHERS and what a pair they are! Not often do you see full brothers of this magnitude, but to be twins this far up in the catalog is not around every corner. Lot 45 is the number brother 1.8 BW, 92 WW, 155 YW, 14.3 HP, 1.1 Marb and RE followed with a 341 \$C. This is the meat and potatoes bro, he's long, deep and a structurally correct bull. Lot 46 the flashy out there brother, with the extra look, middle and power. He gives that extra wow phenotypically. He is the calving ease brother with 12 CED, .8 BW and an actual birthweight of 73lbs and still over a 300\$C!

This one is my buddy. Been a fan of him since birth and he hasn't stopped impressing since. He's long, deep, athletic and a real beef bull. Out of a 11-year-old cow that's still in production that gets it done year after year. She sent a heifer to Cranview Gelbvieh a couple years ago and she is making an impact. If you want a bull that does all the right things and has the cow power behind him, this is one you take home and bet the farm on. Keep every daughter!

Our past sale topper who sold to Stevenson Diamond Dot Angus in Montana where he has done a great job for that program. Many of their high-selling bulls have been out of this sire. He has also done a great job here and the sons in this sale are highlights. These cattle are full of mass and body depth, while being calving ease and high-performance individuals. He is backed by one of our all-time best cows who has the featured Lots 12 and 15 in this sale.

New sire group! "1469" was used on a select group of heifers last Spring and we think he did exactly what we thought he would. He added length and look but kept them soggy middled and sound. He was a calving ease specialist and so are his sons. Lot 54 is just long and attractive with the free and easy movement like his dad. 10 CED, 70 ACT BW, -.1 BW EPD!

A really nice way to end the sale. Long, deep, practical and functional bulls with double digit HP and 300+ \$C!

Again, this year we are offering three of our most unique open heifers from our replacement pen. These three paternal sisters all hail from Balance daughters, who are out of daughters of two of Sitz Stellar greatest breeding son's. They represent three of our best cow families as well. These females are sure to make an impact on most any breeding program. We will be offering choice of the three to the winning bidder with the option to buy up to all three. All three will be offered for sale.

The Enlist daughters are making tremendous cows. They are excellent mothers with outstanding foot and udder quality who know how to take care of a calf. This female also stems from a prolific and productive cow family. Her grandmother was my favorite Resilient daughter on the ranch. Her dam is also developing into one of our best. The number package, phenotypic quality, and maternal heritage make this female a tremendous buying opportunity.

Commercial Open Heifers Lot 129 – Lot 158

The following 30 open heifers were all born and raised right here on the ranch. They are all out of solid, productive registered Angus cows and most are sired by bulls that were also raised in our program. They are a moderate framed, deep bodied set of females that have that front pasture kind of look. They have been fed, developed, and handled the same as our own replacements. These females should weigh over 900 pounds on sale day and will be ready to breed. This group has consistently had a very high level of customer satisfaction over the years.

They will be sorted and lot tagged according to what I feel is the best starting at Lot 129. They will sell in groups of five or more.

Stella
2012-2025

Happy Trails!

VOLLMER ANGUS RANCH IN PICTURES

Don't buy an **imposter.**

Not all "Angus" bulls are **REGISTERED** Angus bulls.

If you see this logo in conjunction with an individual animal or group of animals, you know that that animal is registered with the American Angus Association and backed by the power of **data, programs** and **pedigrees** of the Association.

Invest wisely in those that carry the **Powered By Angus** logo.

Look for the **REGISTRATION NUMBER.**
