Introduction

The mental health crisis has been ongoing for a long time, but it has been exacerbated by the COVID-19 pandemic. Many people are struggling with their mental health and are not getting the help they need.

Astrology is used for thousands of years as a tool for self-reflection and personal growth. It can help us understand our strengths and weaknesses, and it can also help us identify areas where we may be struggling.

Astrology is not a substitute for therapy or medical treatment, but it can be a helpful tool for those who are looking for a deeper understanding of themselves.

Astrology is a complex system that can be used to understand many different aspects of life. It is important to find a qualified astrologer who can help you interpret your chart and apply it to your specific situation.

Astrology is a powerful tool that can be used to understand ourselves and our relationships. It can help us identify
