Kimberley Jurens Woodwind Repairs Inc. is committed to helping flute & piccolo players thrive!

In Canada renting low flutes presents a number of unique challenges. Not only are low flute rentals more difficult to find, but finding a location that also specializes in servicing, repairing and playing low flutes is even more difficult.

KJWR Inc is in a unique position because Kim is a technician and a low flute player! This allows KJWR Inc. to not only rent low flutes, but also professionally maintain and service them so that they can play their best.

In order to make low flute rentals possible, Kim asks that players renting from KJWR Inc. care for their rentals as if they were renting from a friend. The truth is – as a small business, the viability of KJWR Inc. having low flutes available for rent is entirely dependent on them being cared for.
