#### **Core Competencies**

##### **Occupational Security™ Consulting**

Integrated advisory services that align workplace safety, emergency readiness, and protective security into one cohesive program.

##### **Security Assessments & Physical Penetration Testing**

Evaluation of physical security posture, site vulnerabilities, access control weaknesses, and real-world readiness through structured assessments and controlled testing.

##### **Training & Readiness**

On-site instruction, workshops, tabletop exercises, and scenario-driven training designed to turn policy into performance.

##### **Audit & Enhance**

Evidence-based gap assessments measuring current programs against recognized standards, with prioritized recommendations for improvement.

##### **Program Development & Sustainment**

Design, implementation, and ongoing refinement of sustainable security and emergency readiness programs tailored to the client's mission, structure, and risk environment.

##### **Risk Monitoring & Threat Intelligence**

Continuous monitoring and tailored intelligence support that transforms raw information into actionable insight for leadership decision-making and escalation planning.

#### **Signature Solutions**

##### **BridgeShield™**

Flagship training and readiness program focused on validating and strengthening Emergency Action Plans through modular instruction and real-time exercises.

##### **BridgeSentinel™**

Behavioral threat detection and frontline recognition training within the broader Occupational Security™ model.

##### **BridgeContinuity™**

Continuity and recovery focused planning support to help organizations maintain operations and recover effectively after disruptive events.

#### **Differentiators**

Vendor-neutral, mission-focused advisory approach  
Veteran-led team with backgrounds in military, law enforcement, fire service, and emergency management  
Practical, standards-aligned delivery built for real-world conditions  
Scalable support ranging from assessments and training to full program development and sustainment
