

POWER
DISTRIBUTION

RACK MOUNT + VERTICAL RACK MOUNT + WALL MOUNT + SINGLE OUTLET

OUR STORY

From Ethereal, the pioneers of unique AV innovations for more than 75 years, comes the power distribution products of the future. We know what AV professionals need to keep their invaluable customers happy and fulfill their expectations. We also know what it takes to protect the most valuable equipment while giving customers convenient, reliable service. That's why we created Big Dog Power.

We've incorporated revolutionary features that allow for full smart home integration, automation, and remote control to make the job of AV professionals easier. Gone are the days of tedious service calls to simply reboot equipment or insufficient surge protection. Instead, we're giving integrators the power to spend less time on maintenance while increasing overall customer satisfaction with their business.

REVIEWS

AUSTIN NOONAN

Infinity Home Technologies

"Big Dog Power's field replaceable surge modules and remote monitoring is a game-changer. This will help give our clients the best service possible with virtually no risk of downtime from a Surge-related Event."

CAGNEY LAFFERTY

Vintage Security

"Big Dog Power is a solid piece of networking equipment that can protect your network on multiple levels. The fact that you're not losing a device; instead, you are replacing a surge module when a surge happens is awesome. The option of WiFi and a hardwired connection are necessary for many take over or retrofit applications."

BILL HUFFMAN

Skywalker AV Supply

"I personally tested the new Big Dog Power Products from Metra AV. The products were built well and performed as expected, plus the app was easy to use. My favorite feature, and what really sets this product apart from the competition, was the replaceable surge protection modules. Big Dog Power will simplify installations and add value to our installers' business."

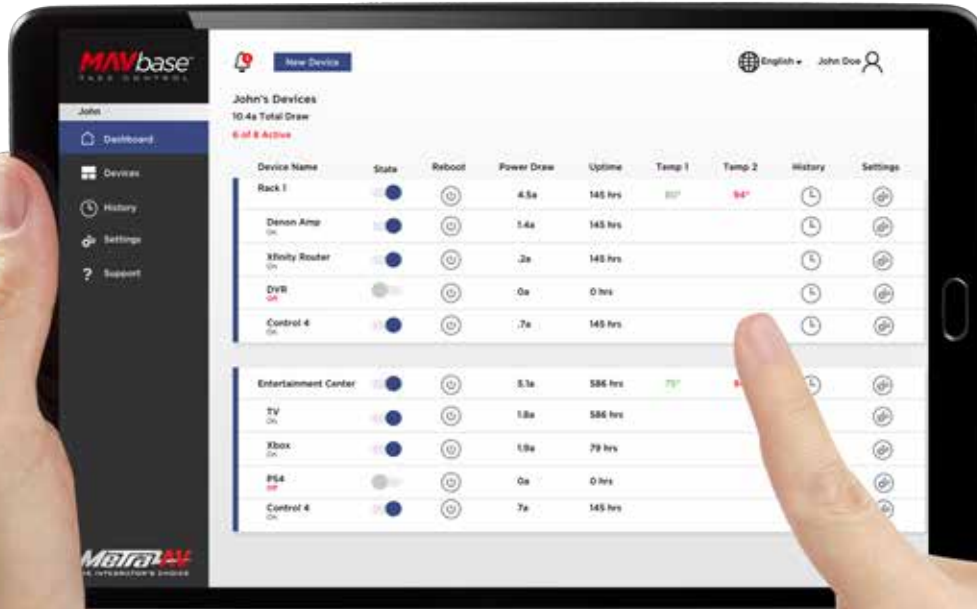

SEAN FITZPATRICK

DOW Technologies

"The removable surge module is a game-changing element. Also, the feature that allows the system to ping my router and modem to ensure I have a steady internet connection saves truck rolls and fixes a customer's problem before they even realize they had one."

WARNING: This catalog does not advise whether a State of California Proposition 65 warning is required for a particular item of merchandise. To learn whether a particular item of merchandise requires a California Proposition 65 warning, please be sure to look up and read the particular merchandise's listing on Metra's website www.MetraOnline.com, as well as read the particular merchandise's packaging. When a California Proposition 65 warning is present on Metra's website listing for the particular merchandise, or on the particular merchandise's packaging, a compliant California Proposition 65 warning is to be provided to the purchasing California consumer prior to the sale of the particular merchandise.

MANAGE EVERYTHING FROM ONE APP

An intuitive app design provides a simple user experience for homeowners to manage connected devices. Integrators can monitor all of their clients within the MAVbase app with the option of either remote or direct access. Direct access allows integrators to log in and program the PDU without internet.

INTELLIGENT POWER

We've combined all the features integrators need into one unique power distribution unit to deliver surge protection, remote control, smart home integration, rack temperature management, and more. The 12 individually controllable outlets have power metering, self-healing, and automatic reboot capabilities for smarter remote management of your connected devices. An additional always-on service outlet is available when you need to charge a laptop or cell phone when working on the system. The power distribution unit can also be set up and programmed without an internet connection.

Specifications:

OPERATING TEMPERATURE: 14° F - 104° F (-10° C - 40° C)

SURGE PROTECTION: 5100 Joule (replaceable)

EXTERNAL ANTENNA: Yes

OUTLETS (TOTAL): 13 outlets

ALWAYS-ON OUTLET: 1 (front) service outlet

SWITCHED OUTLETS: 12 (rear)

AC INPUT OUTLET: IEC C14, 15A circuit, product UL rating 12A

CIRCUIT BREAKER (COP): Yes (rear)

CORD LENGTH: 6ft

SAFETY CERTIFICATIONS:

UL/CUL, FCC. UL 62368-1+UL 498+1449 with CSA 269.3+UL 1283, FCC Part15B+ICES-003, FCC ID/ISED (wireless device FCC)

WARRANTY: 5 Year Limited

REMOVABLE SURGE PROTECTION MODULES

The effectiveness of a surge protector weakens with every single surge. Instead of leaving your devices vulnerable or replacing the entire system any time it takes a hit, two removable surge protection modules (MOVs) allow you to replace just the modules. The app lets you see their remaining life (Surge Mileage), so you can monitor the condition of the MOVs and schedule servicing to replace them as needed.

Self-Healing Relays for Automatic Rebooting

The smart outlets have contact closure and sensing relay capabilities, which means they can automatically reset outlets that are not on the network. Automate an outlet reset process so you can experience your smart home technology without inconvenient interruptions requiring service calls or visits.

Smart Temperature Monitoring

Four temperature sensors allow you to set up features like turning on a fan or turning off devices when the temperature gets too high.

Prevent Technical Issues Before they Happen

Reduce service calls and truck rolls by programming connected devices to automatically reset on an ongoing schedule.

Integrate with the Best

Big Dog Power products are “automation-ready” for Control4 and Crestron, with more platforms coming soon so you can continue managing your devices through the same control system app.

INTELLIGENT POWER

We've combined all the features integrators need into one unique power distribution unit to deliver surge protection, remote control, smart home integration, and more. The 6 individually controllable outlets have power metering, self-healing, and automatic reboot capabilities for smarter remote management of your connected devices. An additional loop-out outlet allows daisy chaining multiple units for unlimited configuration and easy addition for new devices.

Specifications:

OPERATING TEMPERATURE: 14°F - 104°F (-10°C - 40°C)

SURGE PROTECTION: 2040 Joule (replaceable)

EXTERNAL ANTENNA: Yes

OUTLETS (TOTAL): 7 outlets

LOOP-OUT OUTLET: 1 outlet for daisy chaining

SWITCHED OUTLETS: 6

AC INPUT OUTLET: IEC C14, 15A circuit, product UL rating 12A

CIRCUIT BREAKER (COP): Yes (rear)

CORD LENGTH: 6ft

SAFETY CERTIFICATIONS:

UL/CUL, FCC. UL 62368-1+UL 498+1449 with CSA 269.3+UL 1283, FCC Part15B+ICES-003, FCC ID/ISED (wireless device FCC)

WARRANTY: 5 Year Limited

Flexible Mounting Options

Mounting equipment on the back of the rack that would hit a traditional vertical PDU. Mount one PR-V7PI above and one below. For a full rack with only a 1RU space available, rotate the unit and mount it horizontally. Link multiple units together for plenty of controlled outlets.

REMOVABLE SURGE PROTECTION MODULE

The effectiveness of a surge protector weakens with every single surge. Instead of leaving your devices vulnerable or replacing the entire system any time it takes a hit, a removable surge protection module (MOV) allows you to replace just the module. The app lets you see their remaining life (Surge Mileage), so you can monitor the condition of the MOV and schedule servicing to replace as needed.

Self-Healing Relays for Automatic Rebooting

The smart outlets have contact closure and sensing relay capabilities, which means they can automatically reset outlets that are not on the network. Automate an outlet reset process so you can experience your smart home technology without inconvenient interruptions requiring service calls or visits.

Smart Temperature Monitoring

Four temperature sensors allow you to set up features like turning on a fan or turning off devices when the temperature gets too high.

Prevent Technical Issues Before they Happen

Reduce service calls and truck rolls by programming connected devices to automatically reset on an ongoing schedule.

Integrate with the Best

INTELLIGENT POWER

We've combined multiple features into one unique power distribution unit that fits behind your wall-mounted TV. This 3-outlet smart power controller delivers surge protection, remote control, smart home integration, and more. The 3 individually controllable outlets give you self-healing, automatic reboot, and power metering for total power management. The intuitive MAVbase app provides a simple user experience for easy management of your connected devices.

Specifications:

OPERATING TEMPERATURE: 14°F - 104°F (-10°C - 40°C)

SURGE PROTECTION: 2380 Joule

EXTERNAL ANTENNA: Yes

OUTLETS (TOTAL): 3 outlets

INTELLIGENT POWER

Big Dog Power provides controlled AC power to your equipment. One controlled outlet provides up to 15 amps of current, and a Wi-Fi connection allows for placement and network connectivity flexibility. In addition, the built-in self-healing functions of the PR-S1PI will keep your network-connected equipment going by automatically rebooting and maintaining the equipment.
