

THE ABILITY TO SEE ALL INSTALLS MAVBASE APP

MANAGE EVERYTHING FROM ONE APP

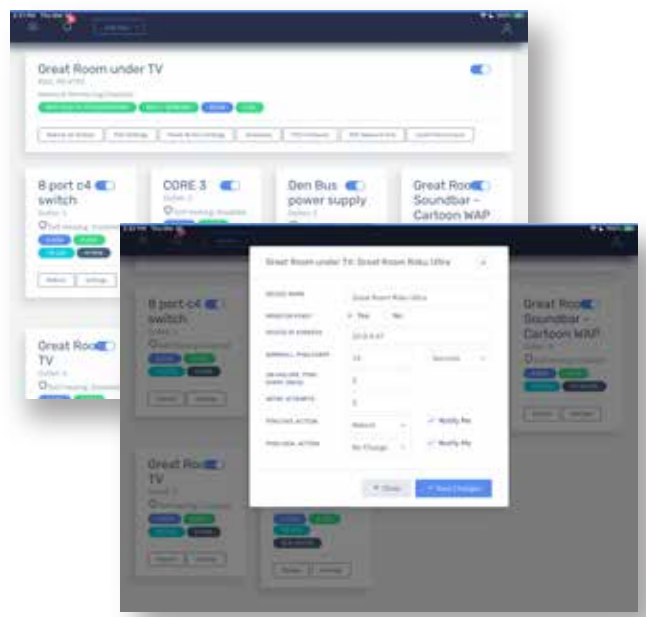

An intuitive monitoring and remote management platform designed by Ethereal for Automation, AV, networking and surveillance integrators. This app makes it easy to give customers the best service possible by managing and configuring all device settings and fixing problems before they affect their systems. The flexible app is designed to work how integrators work, with easy programming that can be set up by outlet or device to mimic the workflow of their choice. Combined with the award-winning Big Dog Power Smart Power Distribution Unit (PDU), this app allows AV professionals to deliver surge protection, remote control, smart home integration, rack temperature management, and more.
