GROWING

Our vision is a world where all urban communities have access to locally grown, nutritious food.

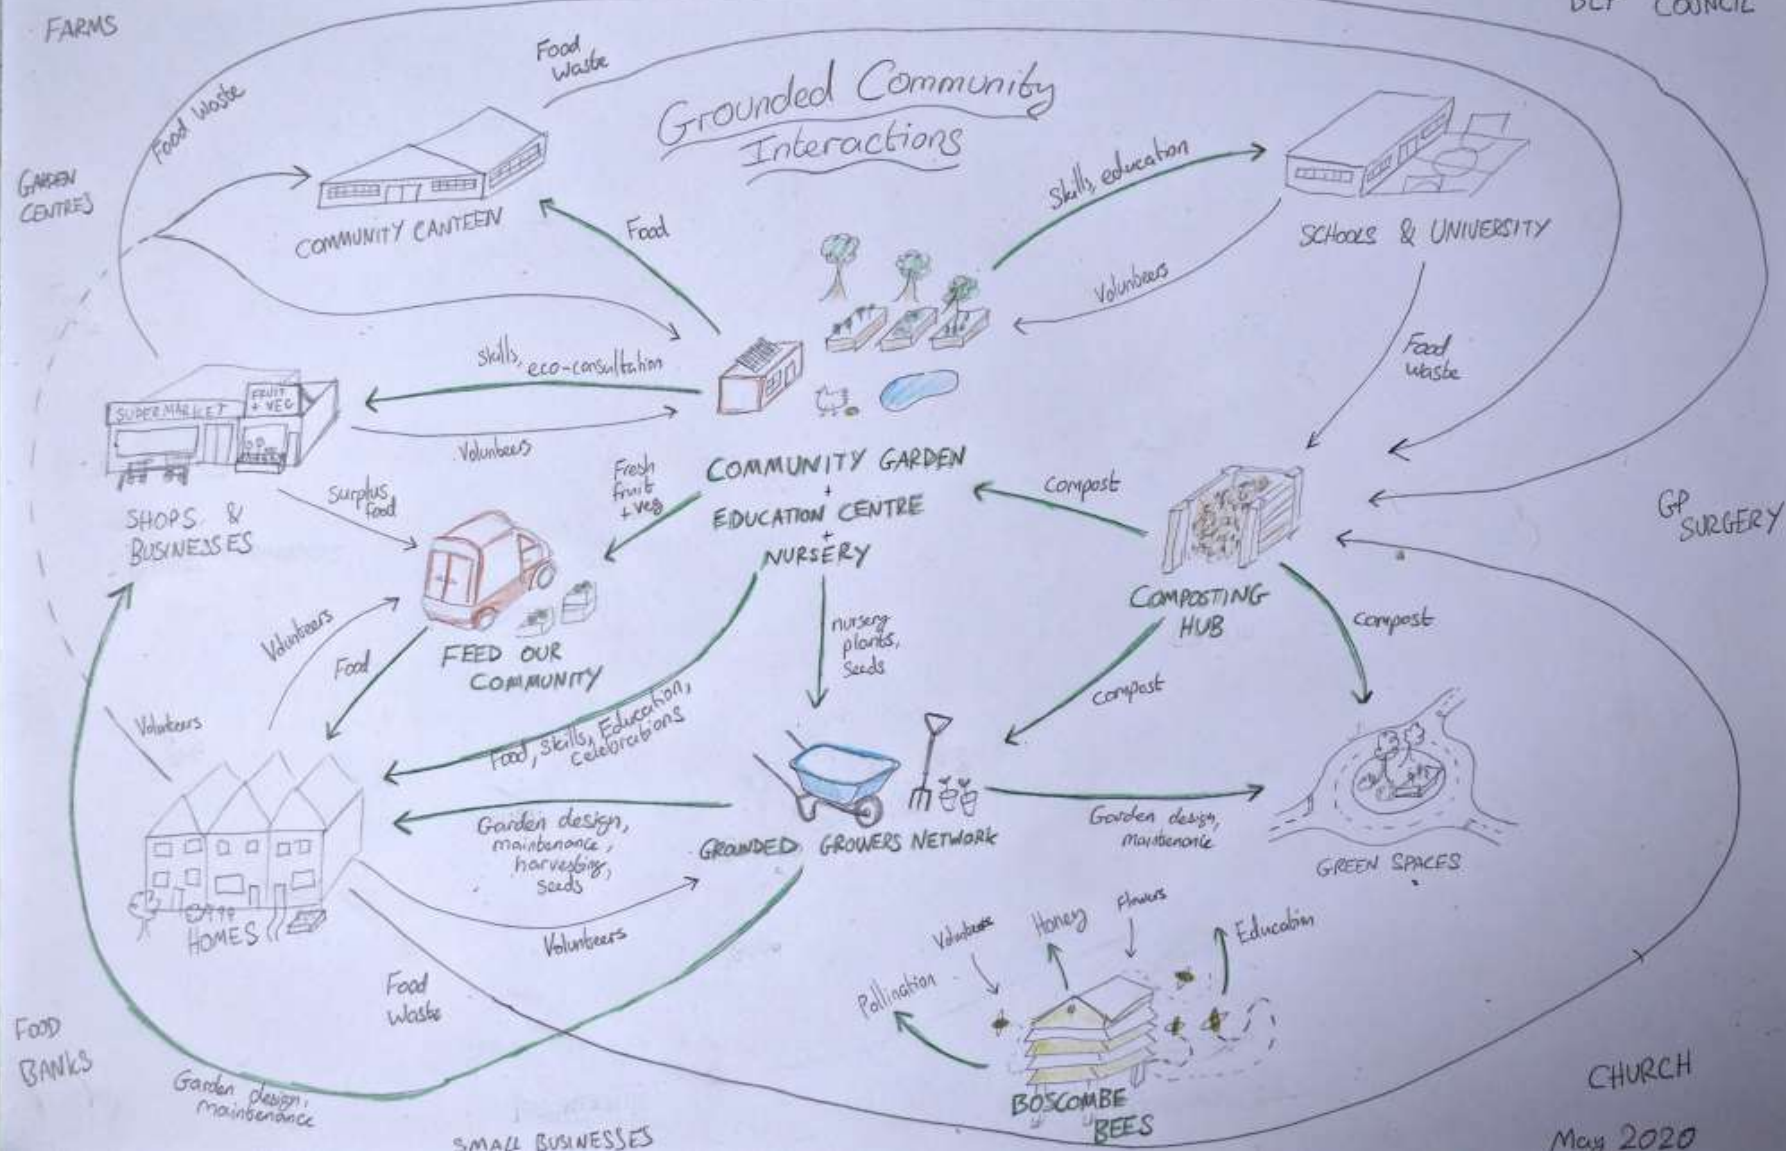

- **Our mission** is to educate, share and grow, so we can reconnect members of our community with nature, with food and with each other. We want to work together to build an abundant, circular food system and a culture of storing, reusing, and redistributing food surplus.
- To do this, we focus on four areas: **education (skills & learning), community, access to food and the environment.**

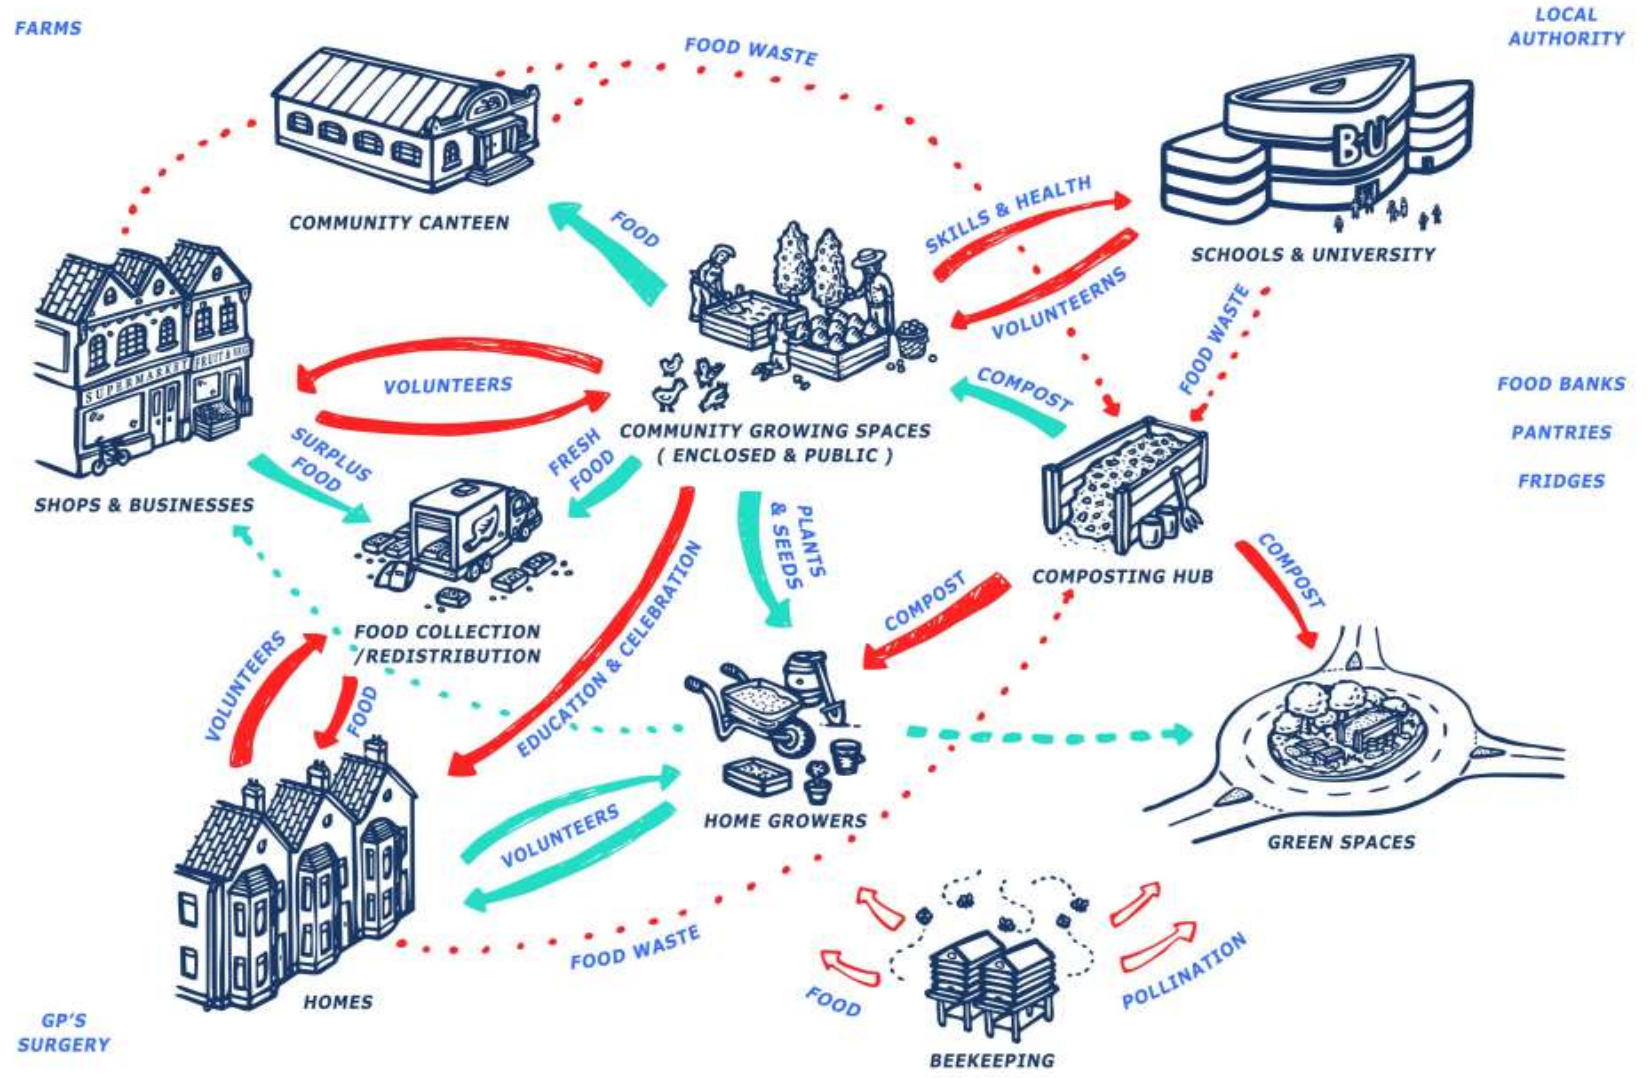

AFTER 3 years ...

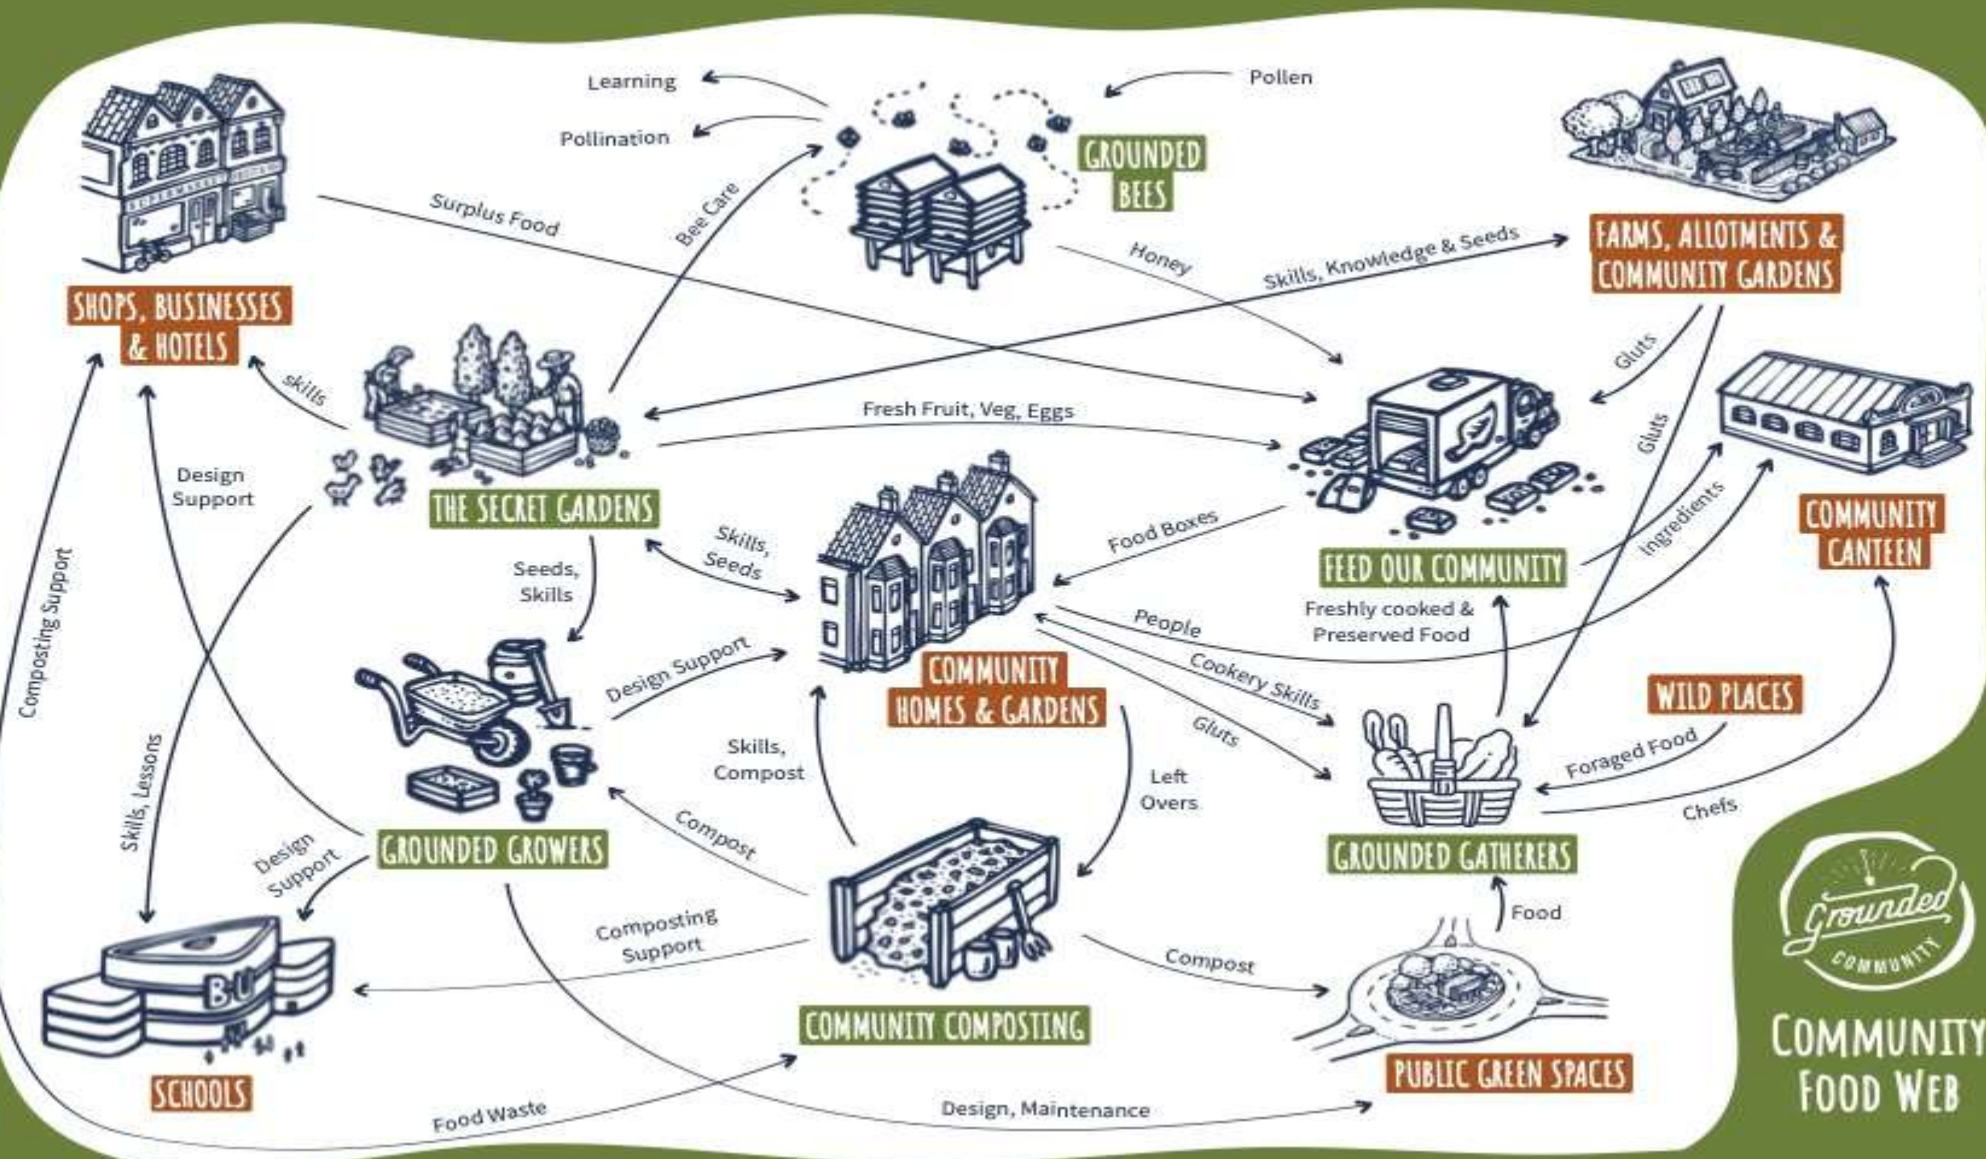

Grounded Community Charity was born

- The practice shifted from being about supplying food, to being about supporting people to grow their own.
- The vision had always been to help people to grow their own but our set up was focused elsewhere.
- In year one with 4 trustees, 3 part time staff and over 70 volunteers we established our charity. We raised £90k, through multiple funds, ONGOING!!
- In Year 2 we built our staff team to 9 part time, 140 volunteers and raised £350k through lottery and other local funders.
- We have created 6 projects over 4 sites and partner with two others

What is Eco Sobo?

Eco Sobo is a brand-new sustainability fayre planned for Southbourne's Fisherman's Walk in May 2024.

The aim is to introduce and share local sustainable brands and practises to encourage a more sustainable community.

We're aiming to inspire, educate, inform *and* entertain – all as sustainably as possible.

We'll be making sure the fayre itself is as 'green' as it can be with only vegan food and drink stalls, hybrid generators, and a single-use plastic free policy.

It's not just an event, it's a movement

We'll be providing a library of free resources online which will be freely available to anyone and will include tips and information across all areas of interest.

For example, we have ideas for plastic-free swaps around the home, how to and where to do waste-free grocery shopping, active travel ideas, and so much more.

We've also set up an Eco Sobo Facebook page where people can go to find out what's on and where.

And, we've also set up an Eco Sobo Facebook group which will be a place for all sustainability lovers in and around Southbourne who are keen to live a more sustainable lifestyle at home or at work and lessen their impact on the planet.

What it'll look like...

Weaving through Fisherman's Walk, Eco Sobo will present visitors with different 'zones' including:

- Home
- Health and beauty
- Garden
- Business services: products, technologies and innovations
- LOAF food and drink
- Innovations
- 'Green Kids'
- Country Fayre/Traditional: veg comp/repair café/bread making comp/cake comp
- Entertainment: Live music/speakers corner/stage/pledge board

We're also hoping to get permission from BCP Council to close the high street for a 'Green Wheels' exhibition where people can try out electric vehicles and active travel options.

How you can be involved...

Volunteering

We would love this to be as community driven as possible. So, if you'd like to offer support in making this event happen, whether that be your skill set or your time, it would be much appreciated.

As this is a new venture, there's no money in the kitty, we're all donating our time FOC and hoping it pays for itself!

Stall Holder

We'll be charging very reasonable rates for stalls, these rates will be based on the size of the pitch and the size of the business to be as fair and as inclusive as possible.

Sponsorship

We will also be offering sponsorship opportunities for those who'd like to support Eco Sobo. We are happy to create bespoke packages depending on budgets and preferences.

Thank you for listening, feel free to ask us some questions!
