

Every AP department needs more insight and more power to get more done. In the digital world we live in today, AP leaders cannot afford to have insufficient access to business intelligence about the processes they are performing to get the job done.

The 3 Wins AP Automation Solution digitizes and simplifies the processing of any invoice, no matter the complexity or volume, where your staff work, or the ERP or accounting system that you use.

Automating invoice processing with 3 Wins has helped organizations:

- » Reduce invoice processing costs
- » Accelerate invoice approval times
- » Eliminate duplicate payments
- » Decrease supplier inquiries
- » Improve cash flow and spend management
- » Keep approvals moving when staff work from home
- » Increase overall productivity in the AP department

With the 3 Wins AP Automation Solution, AP teams have more time to focus on the things that matter most to business growth: data analysis, supplier management and vendor master management.

Best of all, 3 Wins can accomplish all this without requiring changes to your legacy ERP.

## A complete approach to AP automation

The 3 Wins AP Automation Solution makes it easy to receive, process and post any supplier invoice.

### Self-Service Vendor Portal

Strengthen the relationships with your vendors:

- » Allow vendors to easily upload invoices in any format
- » Provide transparency at every step of the process 24/7/365
- » Let them know when they will get paid
- » Collaborate in an automated fashion

### User-Centric Dashboard & BI

Improve financial and operational efficiencies:

- » Utilize data to strengthen supplier relationships
- » Examine KPI's to improve employee performance
- » Analyze metrics to create faster turnaround times and close certain gaps
- » Leverage customized widgets to track the status of invoices and act on bottlenecks

### Digital Mailroom

Effortlessly aggregate all electronic and paper invoices onto a single platform:

- » Drag and drop invoices to a self-service upload portal
- » Automated EDI ingestion
- » Invoices are automatically extracted from emails
- » 3 Wins AP robots retrieve invoices from web portal or a designated FTP landing site
- » Paper invoices are picked up from a designated PO Box

### Intelligent Capture

Never key invoice data again:

- » Extract and validate invoice data without manual keying
- » Achieve guaranteed 99.95% data capture accuracy with our unique verification process
- » Automatically match invoices against purchase orders and delivery documents

### Dynamic Workflows

Approve invoices at lightning-fast speed:

- » Digitally route invoices to approvers across town or across the globe
- » Easily configure business rules for invoice approval routing
- » Use alerts, notifications and escalation procedures to keep processes moving
- » Approve or reject an invoice with the click of a button from your email
- » Empower remote workers and those on-the-go with mobile invoice approval capabilities
- » Ensure compliance and security with audit trails and comprehensive administrative tools

### Seamless Integration

Post approved invoices into your ERP without lifting a finger:

- » Seamlessly upload data on approved invoices into any ERP without manual keying
- » Accelerate the delivery of invoice information downstream
- » Gain 360-degree visibility into invoice and supplier information
- » Pay suppliers in their preferred method: check, card, ACH or wire

## Be prepared for what's next

3 Wins team is made up of a global market leaders with a strong focus on innovation-driven accounts payable automation solutions and invoice processing software. 3 Wins helped pioneer the use of digital technologies to transform document-centric business processes by creating a 100 percent digital process that includes database matching, document tracking and digital archive. We continue to lead the way with the most advanced technologies in AP:

- » Digital mailroom
- » Self-service online portal
- » Intelligent data capture
- » Dynamic workflows
- » AP software bots (RPA)
- » Artificial intelligence (AI)
- » Machine learning (ML)
- » Analytics and business intelligence (BI)

We combine these technologies with decades of know-how in AP and business process automation.

The 3 Wins AP Automation Solution will help you meet the challenges of today and tomorrow.
