

# Strategies for Learners with Attention Issues

[www.thepathway2success.com](http://www.thepathway2success.com)

Give clear, one-step directions

Teach students to check-in with themselves

Incorporate movement during lessons

Give brain breaks between lessons

Set a timer for work sessions

Provide fidgets (and teach how to use them)

Use visuals as reminders and supports

Provide flexible seating options

Play attention-boosting games

Incorporate hands-on learning activities

Use student interests in lessons

Use a chime before giving important information
