

CAPABILITY STATEMENT

Company Overview

CaliPro is a reliable mobile business that provides high-voltage (HV) testing, calibration, inspection and instrument repair services based in Gladstone. With our commitment to technical excellence and customer satisfaction, we deliver comprehensive, on-site solutions that ensure your equipment and safety gear are maintained to the highest standards.

Differentiators

On-Site Convenience:

We offer comprehensive testing, calibration, and inspection services directly at your location, to minimising operational downtime and ensuring efficiency.

Technical Expertise:

Skilled technicians with extensive experience ensure accurate and reliable service.

Efficient Service:

Quick turnaround to reduce downtime and costs.

High Integrity:

We are committed to upholding the highest technical standards and professionalism in every service we provide.

Mission Statement

At CaliPro, we are dedicated to delivering precise and reliable HV testing, calibration, and inspection services across Queensland. We focus on delivering prompt, professional service with unmatched technical integrity, ensuring both operational efficiency and safety for our clients.
