

Bloom Revolution Movement

Three principles we know will activate and raise our consciousness on a global level when we remember:

1. **Our Vision:** We know all is well as Love surrounds us. Our vision is having the BEAUTIFUL LIFE however that may look. It will come from our highest consciousness as we reach our highest potential.....LOVE.
2. **Our Possibility:** Universal transformation is possible when we reach our highest potential, LOVE. Peace, Prosperity, and Happiness is ours when we allow love, our true nature to **be**.
3. **Our Intention:** We are here to bloom and we bloom where we are planted. Blooming allows us to reach our highest potential by developing our true nature, love. Love is the highest power in the Universe. Love leads the way transforming our world. We have the experience of THE BEAUTIFIUL LIFE.

Definitions pertinent to Bloom Revolution:

Bloom: A state or time of high development; to mature into one's potential; to become. A bloom represents each one of us as God's gift to others. We are flowers symbolizing the bloom any time and at the perfect time. We create beauty (Beautiful Life) just by our presence. Our intention to raise our consciousness benefits anyone and everyone we meet. We all experience the Beautiful Life.

Revolution: An activity or movement designed to effect a fundamental change in the way we think about something. That something is the way we feel about ourselves as we activate our intention and reaching our highest potential for others to experience theirs. Our work is ours to do. There is no struggle or fight with anyone. The only possible struggle is the one within which comes from our attitudes, judgments, and beliefs. We realize we are learning to bloom where we are planted and love always paves the way. Our movement is about global transformation based on us BEING love. All of us can experience having a BEAUTIFUL LIFE (movement) by who each of us are BEING.

1. We have a new commitment. We participate in the possibility of universal transformation where Peace, Prosperity, and happiness are the norm.
2. With our new commitment to transform our consciousness globally, we now become a part of the solution rather than the problem. Our commitment is to bloom where we are planted.
3. Our new intention is to reach our highest potential by developing our true nature...love.
4. The only player in this revolution is me. As I raise my consciousness, I support the evolution of a higher consciousness for everyone toward The Beautiful Life.
5. We know all is well but we are also responsible for our thoughts and actions. Knowing this we choose the highest power, love, to activate the Shift we have been asked to make for everyone's

welfare for a life worth living. Science and spirituality are connected. We were clueless in our participation of Global consciousness that caused the Shift. Now we understand how to participate in raising the consciousness of our planet by being our highest potential, love. We choose to do that everyday knowing we affect everyone and everything in who we are BEING.

The answer to the Shift is us being the intention we visualize creating new and better possibilities for our world. By doing that we create the vision we all desire for the beautiful life of our own.
