

# Life

By Diane Sal

The elders of our generation have been where we are now. Many do not believe in abortion and many believe that life begins at conception. But what does our government believe?

Where there is a government that does not value human life, with approximately 55 million babies aborted in America since the abortion law was passed, they will not value your life. Although this is not about economics, let us for a moment consider the impact on your retirement. It is 55 million Americans not contributing to the economy, to social security, to retirement benefits and to the amazing medical discoveries that may have prolonged your lives. But it is not necessarily about this, it is about the value that we place on a life whether that life is in a womb or nearing the end as we know it here on Earth.

We are at a period in our time where government not only does not value the life of the unborn but they are contemplating the idea that maybe the life of the elderly is not valued as it once was. This is evident in the recently passed Obama Care Laws which are very vague and interpretive in their dealings with those that have terminal illnesses, mentally incapacitated and/or where the age of the person is considered unworthy of spending 'valuable' tax payer money on.

The Luciferians are in a position of power. At present they control the direction of many debates on social issues including euthanasia and abortion. Euthanasia to them is another form of allowing individuals to control their own bodies. Like abortion, they see euthanasia as a means to an end and this has nothing to do with anybody but the individual involved. But is this the truth of the matter? Is this what they really believe or is there something more sinister at hand?

## Genocide, Under the Radar

As reported recently by the Family Institute of Connecticut, there is a push for government to legalize assisted suicide, essentially making doctors and government complicit in arranging or approving the right of an individual to end their life.

At what point will this become a means through which the government and doctors (appointed by the government) will promote the benefits of somebody in their last years taking their life. Basically making them feel guilty for wanting to be alive. Let's look at just two examples where government is implicit on promoting euthanasia.

- Belgium, a law to euthanize children is moving forward,
- Oregon, patients desiring treatment under the Oregon Health Plan have been offered assisted suicide instead, and
- Connecticut, at the "Compassion and Choices" Press Conference 2013, a legislator admitted under questioning that once the first suicide assisted (euthanasia) bill is passed, they could come back for a second bill to allow the *mentally incompetent* to take their own lives.

---

*What does God have to say about what is happening in our Governing institutions? In Ecclesiastes 3:16-17 God says: "I also noticed that under the sun there is evil in the courtroom. Yes, even the courts of law are corrupt!" and Solomon said to himself, "In due season God will judge everyone, both good and bad, for all their deeds."*

As I said earlier, you are the elders of our generation and although sadly we are not looking up to you just yet, we need you to stand out, to stand firm on what is right and to be that beacon of light. As you get older, there may be some limits of what you can do; however, there are still many things you can do.

- You have a voice, you can write to fight – 'The pen is mightier than the sword.'
- You can stand in front of the abortion clinics and talk to these young people as if they were your own grandchildren,
- And be that voice of what you know to be right to your children and grandchildren.

There is 'power' God has given to the elders. They are the anchor to the lives of many – to the lives of children. All generations face new and different problems but elders have seen so much, felt so much and experienced so much; and the miracle is that they are alive and have much to teach.

The work is not done. The elders lives are just as at risk as the unborn child. Rise up in the power of Jesus Christ and put Jesus before you. Take that first step to rescue a generation and help teach, encourage and lead another generation in what is right. Nothing is impossible for Jesus, but however compassion alone is not enough. Compassion moved to action is what Jesus wants to see. It is not the sympathy of the masses, but the action of the individual that leads to change.

You are the anchor to an entire generation, a generation that is responsible in raising children. Reach out and share your story, your experience and your wisdom; a generation may be saved. Don't let your generation be the last that reaches old age.

*God already has the victory, but it is you and I that write the pages of history.*

---

In the last days I encourage you to be available because God will use men, women and children for His purpose.

Acts 2: 17 'in the last days,' God says, 'I will pour out my Spirit upon all people. Your sons and daughters will prophesy. Your young men will see visions, and your old men will dream dreams.'

Don't believe the lie that you cannot be used by Jesus to influence a generation.

- When Moses was 80 years old, God told him to return to Egypt and He would free the Israelites from slavery. He gave Moses specific directions on what to do and say.
- Caleb, about 80 years old, led the Israelites into the Promised Land.

## Scriptures

---

Exodus 20:13 "You must not murder."

Jeremiah 1:5 "I knew you before I formed you in your mother's womb. Before you were born I set you apart and appointed you as my prophet to the nations."

Psalm 127:3 Children are a gift from the LORD; they are a reward from him.

1 Peter 5:1-2 And now, a word to you who are elders in the churches. I, too, am an elder and a witness to the sufferings of Christ. And I, too, will share in his glory when he is revealed to the whole world. As a fellow elder, I appeal to you: Care for the flock that God has entrusted to you. Watch over it willingly, not grudgingly—not for what you will get out of it, but because you are eager to serve God.
