

NEOGRAFT® FAQs

YOUR QUESTIONS. ANSWERED.

NeoGraft® is an advanced, minimally invasive hair restoration solution that helps restore natural-looking hair—so you can look like you, only fuller.

Here are the questions we hear most often.

1

WHAT IS NEOGRAFT®?

NeoGraft® is an FDA-cleared, robotic-assisted hair transplant system that harvests and transplants your own hair for natural, lasting results.

2

HOW DOES NEOGRAFT® WORK?

NeoGraft® uses advanced technology to harvest healthy hair follicles and place them with precision in areas of thinning or hair loss.

3

AM I A GOOD CANDIDATE?

Most men and women experiencing hair thinning are good candidates. A consultation with our team will determine if NeoGraft® is right for you.

4

WHAT CAN I EXPECT DURING THE PROCEDURE?

NeoGraft® is minimally invasive and typically performed under local anesthesia. Most sessions take 4–8 hours, depending on your treatment plan.

5

IS NEOGRAFT® SAFE?

Yes. NeoGraft® is FDA-cleared and has a strong safety record. Side effects are generally minimal and temporary.

6

HOW LONG IS RECOVERY?

Most patients return to normal activities within a few days. You may experience mild redness or swelling, which typically resolves within a week.

7

WHEN WILL I SEE RESULTS?

New hair growth typically begins in 3–4 months, with fuller results visible at 9–12 months. Results continue to improve over time.

8

WILL MY RESULTS LOOK NATURAL?

Yes. NeoGraft® is designed to create a natural hairline and blend seamlessly with your existing hair.

9

HOW LONG WILL MY RESULTS LAST?

NeoGraft® uses your own healthy hair follicles, which are resistant to DHT. Results are long-lasting and can be permanent.

10

IS NEOGRAFT® WORTH IT?

For many patients, the boost in confidence and quality of life is priceless. Our team will create a personalized plan that fits your goals and budget.

Your Hair. Our Expertise.

At DHmeds, we combine advanced technology with personalized care to deliver natural results you'll love.
