Who We Are

Sonergy Group, Inc. is a multinational energy and commodities company incorporated on March 29, 2001. With operations across North America, South America, Europe, Africa, and the Middle East, we deliver fuel, agricultural commodities, packaged foods, mining and renewable energy solutions to global markets.

Our reputation is built on reliability, integrity, and direct access to producers, refineries, and strategic supply hubs.

Fuel: Our Core Legacy

25+ Years of Fuel Supply Excellence

Fuel is the backbone of Sonergy Group. Since our founding, we have supplied diesel, gasoline, Jet A1, marine fuels, and specialty products to governments, aviation clients, industrial buyers, and marine operators.

Our Global Fuel Hubs

- Rotterdam, Netherlands
- Fujairah, UAE
- Houston, USA
- South America
- West Africa

We maintain strategic relationships with refineries, storage facilities, and logistics partners to ensure consistent supply, competitive pricing, and full regulatory compliance.

What We Do

Fuel & Energy Trading – We deliver integrated energy solutions across the full hydrocarbon value chain. From Reservoir to Market - **Upstream:** We provide rehabilitation, restart fields, production optimization and operator services to maximize reservoir performance. **Downstream:** We blend, store, and export crude to global markets. Sonergy handles the full cycle—so you don't have to coordinate multiple vendors. Global supply of refined petroleum products with integrated logistics, storage access, and compliance support for government, aviation, marine, and industrial clients.

Commodity Trading Direct access to high-quality rice, sugar, wheat, beans, and grains sourced from trusted producers and export-grade suppliers.

Agricultural Production Large-scale grain farming operations supporting export-quality production and food security initiatives.

Packaged Food Distribution Magson Foods and other premium brands distributed across the United States, Middle East, and Africa through major supermarkets and wholesalers.

Renewable Energy Solar energy solutions designed for commercial and industrial clients seeking sustainable power alternatives.

Gold Mining With decades of operational experience across energy and commodities, Sonergy brings the same discipline, technical expertise, and strategic execution to gold mining — from early-stage exploration to full-scale production.

Our Brands

Magson Foods — A Sonergy Group Brand

Premium packaged grains, including rice and beans, proudly distributed across major supermarkets in the U.S., Middle East, and Africa. Every package carries the Sonergy Group name as a mark of quality and trust.

Sonergy Around the World

From a global network of farms to refineries, warehouses to shipping terminals, Sonergy Group operates a truly global network:

North America • South America • Europe • Middle East • Africa • India

Our presence in key markets ensures faster delivery times, localized service, and the ability to respond to changing market conditions in real time.

Ready to work with us

Whether you need fuel for your fleet, grains for your market, or solar solutions for your facility, Sonergy Group has the global reach and industry expertise to deliver.

ABOUT US

Who We Are

Built on Fuel. Grown Through Trust.

Sonergy Group, Inc. is a global energy and commodities company headquartered in Florida, USA. Incorporated on March 29, 2001, we have evolved into a trusted partner for governments, retailers, wholesalers, aviation operators, marine fleets, and industrial buyers across six continents.

What started as a fuel supply business over 25 years ago has grown into a diversified enterprise serving critical industries with fuel, food, and renewable energy.

Our Mission

To deliver essential fuel and commodities with integrity, efficiency, and unmatched global reach — empowering industries and communities to thrive. To deliver essential fuel and commodities with integrity, efficiency, and unmatched global reach.

Our History

Sonergy began as a fuel supply company more than 25 years ago. Over time, we expanded into agricultural commodities, packaged foods, and renewable energy — while maintaining fuel as our core strength.

Today, Sonergy operates through a global network of producers, refineries, warehouses, and logistics partners.

2001: Sonergy Group, Inc. is incorporated in Florida with a focus on fuel supply and energy trading.

2001–2010: Established strategic partnerships with refineries and fuel terminals in Houston, Rotterdam, and Fujairah. Built a reputation for reliability in diesel, gasoline, Jet A1, and marine fuel supply.

2010–2015: Expanded into agricultural commodities, beginning with rice, wheat, and beans sourced from producers in South America, India, and Africa. Started undertaking mining project from exploration to production.

2015–2020: Launched Magson Foods, a branded line of packaged grains distributed across major U.S. supermarkets and international markets.

2020–Present: Diversified into renewable energy with solar solutions for commercial and industrial clients. Today, Sonergy operates across North America, South America, Europe, the Middle East, Africa, and India.

Fuel remains our core strength — but our vision has expanded to meet the evolving needs of a global economy.

Why Clients Choose Sonergy

Global Reach, Local Expertise We operate on six continents with regional teams who understand local markets, regulations, and logistics challenges. We combine international reach with on-the-ground knowledge in key regions.

Direct Supply Chain Access We work directly with refineries, farms, and producers — cutting out unnecessary middlemen and ensuring better pricing and reliability.

25+ Years of Proven Performance Since 2001, We've been in the fuel and commodities business building deep expertise and trusted relationships across global markets delivering on our commitments, even in challenging market conditions.

Full Compliance & Documentation We handle all regulatory requirements, quality certifications, and customs documentation to ensure smooth transactions.

Diversified Portfolio Fuel, grains, packaged foods, and renewable energy — all from one trusted partner. We offer a comprehensive range of solutions under one trusted brand.

Long-Term Partnerships We don't just complete transactions — we build lasting relationships with clients and suppliers based on transparency and mutual success.

Our Leadership & Value

Sonergy Group is led by a team of industry veterans with decades of experience in energy trading, commodity supply chains, and international logistics.

We are guided by principles of **transparency, reliability, and long-term partnership with our clients and suppliers.**

Headquarters: Florida, USA

Regional Operations:

- North America (Fuel supply, packaging, distribution)
- South America (grain production and sugar supply export hubs)
- Europe (Rotterdam fuel trading and logistics)
- Middle East (Fujairah bunkering and fuel supply)
- Africa (Beans, rice and grain supply, retail distribution)
- India (agricultural sourcing and export)

WHAT WE DO

Fuel & Energy Trading (Primary Division)

We deliver integrated energy solutions across the full hydrocarbon value chain. From Reservoir to Market – Upstream and downstream services. We supply refined petroleum products to global markets. Our capabilities include long-term contracts, spot transactions, vessel chartering, storage access, and full compliance support.

Sonergy Group provides end-to-end supply chain solutions for fuel, agricultural commodities, packaged foods, and renewable energy. Whether you're fueling a fleet, stocking shelves, or powering a facility, we deliver with precision and professionalism.

Fuel Products

What We Supply:

- Diesel (D2, D6, EN590)
- Gasoline (89, 91, 93 octane)
- Jet A1 (aviation fuel)
- Marine fuels (MGO, VLSFO, IFO)
- Specialty petroleum blends

Who We Serve:

- Government agencies
- Aviation operators
- Marine fleets and bunkering companies
- Industrial and commercial buyers
- Power generation facilities

Our Fuel Hubs:

- **Rotterdam, Netherlands** — Europe's largest fuel and energy port

- **Fujairah, UAE** — Strategic bunkering and Middle East supply
- **Houston, USA** — Heart of North American energy infrastructure
- **South America** — Regional distribution and storage
- **West Africa** — Emerging markets and logistics support

Commodity Trading

We source and supply rice, sugar, wheat, beans, and grains through long-standing relationships with major mills and producers worldwide.

Agricultural Production

Our large-scale grain farms support export-grade production for international markets.

Packaged Food Distribution

Sonergy's consumer brands, including Magson Foods, are trusted by retailers and consumers across multiple regions.

What We Trade:

- Rice (basmati, jasmine, long grain, parboiled)
- Wheat (hard red, soft white, durum)
- Sugar (ICUMSA 45, raw cane sugar)
- Beans (black beans, pinto beans, kidney beans)
- Specialty grains and pulses

Sourcing Regions:

- India
- South America (Brazil, Argentina, Uruguay)
- Africa
- Southeast Asia
- North America

Who We Serve:

- Food distributors and wholesalers
- Retailers and supermarket chains
- Government food security programs
- Export and import companies

Quality Assurance: All commodities are sourced from certified producers and meet international export standards. We provide full certificates of origin, phytosanitary documentation, and quality inspection reports.

Renewable Energy

Our solar division provides scalable renewable solutions for commercial and industrial clients.

Solar Solutions for Commercial & Industrial Clients

As global energy needs evolve, Sonergy Group offers solar energy solutions designed to reduce costs and carbon footprints for businesses and industrial operations.

What We Provide:

- Solar panel installation and system design
- Energy storage integration
- Financing and incentive navigation
- Ongoing maintenance and monitoring

Who We Serve:

- Manufacturing facilities
- Warehouses and distribution centers
- Commercial properties
- Agricultural operations

Why Solar with Sonergy: Our experience in energy markets gives us unique insight into power costs and consumption patterns. We design solar solutions that deliver measurable savings and long-term value.

Natural Resources

Gold Exploration · Mining Production

Sonergy Group extends its global commodities expertise into gold mining, delivering value across the full lifecycle – from exploration to production. With disciplined operations, modern technology, and responsible mining practices, Sonergy develops high-potential sites and transforms them into productive, sustainable assets.

Our Capabilities

- Geological surveying & exploration
- Mine development & infrastructure
- Extraction, processing & refining
- Secure logistics & global distribution

Our Commitment

We operate with integrity, environmental stewardship, and strong community partnerships – ensuring long-term value for host nations, investors, and stakeholders.

SONERGY GROUP

Gold Mining Operations

Sonergy Group's gold production operations integrate advanced geological science with industrial-scale precision. Through targeted exploration and controlled excavation, the company transforms mineralized deposits into refined gold – a cornerstone commodity for global markets and strategic asset portfolios.

For Sonergy Group, gold mining represents both technical mastery and strategic value with advanced ore processing techniques. Closed-loop systems and real-time monitoring ensure consistent yield, operational safety, and environmental stewardship throughout the extraction and refinement pipeline.

The company's commitment to operational excellence extends from initial geological assessment through final refinement, creating a seamless production

How We Work

- 1. Inquiry & Assessment** Share your requirements — volume, timeline, destination, and specifications.
- 2. Quotation & Terms** We provide transparent pricing, delivery schedules, and contract terms.
- 3. Documentation & Compliance** Our team handles all regulatory, customs, and quality certifications.
- 4. Logistics & Delivery** From refinery or farm to your door, we coordinate shipping, storage, and delivery.
- 5. Ongoing Support** We maintain relationships beyond the transaction, ensuring consistency and reliability for repeat clients.

Ready To Get Started?

Whether you need a single shipment or a long-term supply agreement, Sonergy Group has the global network and expertise to deliver.
