Address Boca Raton Marriott at Boca Center
5150 Town Center Circle
Boca Raton, FL 33486

Hosted by:

K&P KANNER &
PINTALUGA

This year's program is designed to deliver an even more dynamic and immersive experience through an expanded medicolegal dual-track format and enhanced networking opportunities.

Our mission remains centered on bringing together leading medical and legal professionals to share knowledge, explore innovative approaches, and address the evolving challenges surrounding Traumatic Brain Injury (TBI). Through expert-led sessions, attendees will gain practical insights into advanced diagnostics, treatment strategies, and effective case management techniques that directly impact patient outcomes and legal success.

This year's symposium places a strong emphasis on real-world application—equipping participants with the tools needed to navigate complex TBI cases with confidence and precision. By integrating medical advancements with legal strategy, we aim to elevate the standard of care and advocacy for individuals affected by TBI.

Equally important, the symposium continues to serve as a hub for collaboration, fostering meaningful connections among professionals who are passionate about making a difference. Together, we are shaping the future of TBI care, strengthening interdisciplinary partnerships, and driving forward progress that truly matters.
