New Horizons Home School & Academy  
On-Campus & Hybrid  
Homeschooling

### UPCOMING EVENTS

See what's happening this month.

### WHAT YOU NEED TO KNOW ABOUT THE THANKSGIVING HOLIDAY

Our holiday hours & schedules are  
provided for you below.

### DAYLIGHT SAVINGS TIME IS ON TAP

Remember to fall-back November 7.

# NOVEMBER 2021

With most students  
on target or ahead  
of schedule, we are  
ready for the  
holidays.

Student productivity is impressive this  
year and we anticipate flowing  
through this holiday season with  
students on target.

## BECAUSE OF YOUR DILIGENCE, WE ARE ALL HEALTHY.

A PROGRESS REPORT ON KEEPING EVERYONE HEALTHY AND SAFE

### Time to Thank You, Parents

Two on-campus students have had family  
members test positive for Covid in the past  
month. It is due to your quick action to keep  
your children at home (even in the face of  
their negative test results), that continues to  
keep us safe and healthy.

We want to thank all parents for their highly  
valued (and continued) support.

## VETERANS DAY

November 11 is Veterans' Day and we will be CLOSED in commemoration of their Holiday. To all U.S. veterans...we salute you. Your sacrifice (and that of your family members) cannot ever be fully appreciated, we know. (Classes resume November 12.)

## Project-Based Learning Schedule (Eastside Campus)

Here is the schedule for the PBL classes for the month of November.

We encourage home-bound students to join in. Children love to work on projects that engage and challenge their understanding of the material being studied and that include a number of different media support.

- November 15, All Day Science for students in grades PreK to 2nd.
- November 16. All Day Science for students in grades 3rd to 6th.
- November 18. All Day Social Studies for students in grades 3rd to 6th.
- November 22. All Day Social Studies for students in grades PreK to 2nd.
- November 29. All Day Science for students in grades 7th to 12th.
- November 30. All Day Social Studies for students in grades 7th to 12th.

These classes are on tap *only* through our classrooms. Need more information? Give us a call!

### Where is my lab coat?

We *really* want to encourage you to purchase a lab coat and some goggles for your child. More and more, children are working on experiments in the classroom. These supplies accomplish two ends:

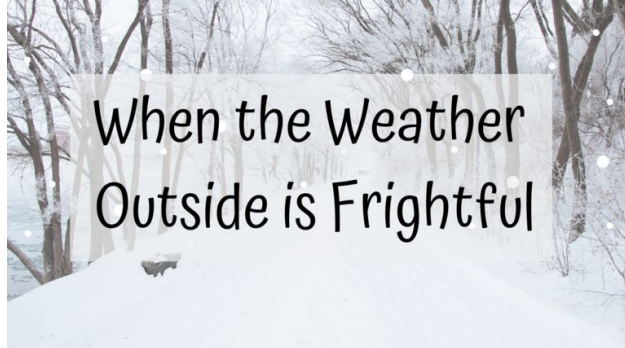

They keep your child (and their clothing) safe *and*, equally as important, they send the message that careers in the Science fields are accessible and realistic. They become, in essence, little scientists when they wear the garb.

Amazon has some great deals on both lab coats and goggles for children of all ages. We encourage their use for *all* grade levels, even PreK to 2nd.

## INCLEMENT WEATHER

Just a reminder that, should we have a snow or ice storm this winter, we let you know if we are Open or Closed on that day through

posts on our Facebook and Instagram pages. These posts are made between the hours of 5 am & 6 am. A scary weather report is normally *not* enough to have us close the school. So, look for a post on the day of bad weather.

When the Weather  
Outside is Frightful

## THE THANKSGIVING HOLIDAY

We hope you have a beautiful Thanksgiving Holiday this year and that you have much to be thankful for.

NHHSA will have an **EARLY DISMISSAL** Tuesday, November 23 (dismissal time is 12 NOON), and we will be closed from the 24th to the 26th.

Classes will resume their normal schedule on Monday, November 29.

## THE FAMILY EXPO IS THIS MONTH!

### FAMILY EXPO

We hope you will join NHHSA at this year's Family Expo, November 13, at the El Paso Convention Center. Make sure to stop by to say hello to (and take a picture with) Lenny, The NHHSA Lion, Click the link below for more information!

### Enrollment Availability for November

Looking to enroll your child? Call us for availability in one of our three campuses: East, West, and Transmountain. We can also recommend the program of study most suited to your child's particular needs. 915-856-7243

*Early Graduation & Adult Grad Programs available.*

PROGRESSIVE EDUCATION  
TAILORED TO WHAT YOUR

## STUDENT NEEDS

If you suspect your child is gifted or if your child is struggling in school (some struggling students *are* gifted) you should call us. In other words, if your child is not thriving, then we're your best choice. **Call us.** 915-856-7243.
