

# Housing options for people with disabilities

**Saturday, April 6th  
10am to 12 noon**

One size does not fit all. This is especially true when it comes to housing and supports for people with I/DD. Come and meet families who bravely endeavor to navigate their unique housing journey for their loved ones with disabilities. You will learn about various housing settings such as traditional licensed group homes, “unlicensed” shared homes created by parents, apartments, and integrated housing. The panel will be joined by professionals who embrace person-centered planning and assist individuals with I/DD and their families to meet their housing and support needs.
