### An Art Museum in Cooperstown New York?

When someone says they're visiting Cooperstown, New York, I immediately think about them going to see the Baseball Hall of Fame.

However, there are a number of museums to visit in Cooperstown including the Fenimore Art Museum.

Formerly known as the New York State Historical Association, the Fenimore Art Museum is located in Cooperstown, NY on the west side of Otsego Lake. The museum's mission is to connect its audience to American and New York State cultural heritage by organizing exhibits and public programs that "engage, delight and inspire."

Its strengths include the Eugene and Clare Thaw Collection of American Indian Art, American fine and folk art, 19th and early 20th century photography, as well as rare books and manuscripts.
