**Waterfront Café (In the large meeting room)
220 Athens Boonesboro Rd,
Winchester KY 40391**

*Lunch is on your own,
you can order off the menu for your convenience.*

Get an update and report on the Ohio River Watershed Restoration Plan. This is a follow up on the National Wildlife Federation's listening tour last summer. There is a lot happening!

What else is happening with The Kentucky Riverkeeper?

We have received a grant from the USDA Forestry Service with our partners LiKEN Knowledge! Help us Identify, Restore and Preserve our Waters (rivers, creeks and streams), Forests and Wetlands. This restoration and protection can only happen with you our farmers, agroforesters, fishermen and women, indigenous peoples, landowners, paddlers, neighbors, families, artists, gardeners and all of our critical stakeholders in the Kentucky River Water Basin. This is for our communities, our children and their children! The Kentucky River Water Trail helps tie all of these projects and concerns together. We need your help and community support! We will have special guests.

Please come to the waterfront and add your voice!
