Purpose and Goals

To provide opportunities that enhance the learning of our kindergarten students by exploring fun educational activities.

We work to build the child's self-confidence through our planned activities. We provide different experiences to continue the learning that is taking place in your child's kindergarten classroom. Unlike your child's kindergarten class, the children are involved in weekly specials of Chapel, Movement, Music, and Spanish. We use the Ohio Early Learning Content Standards to develop lessons aligned to the Common Core Curriculum.

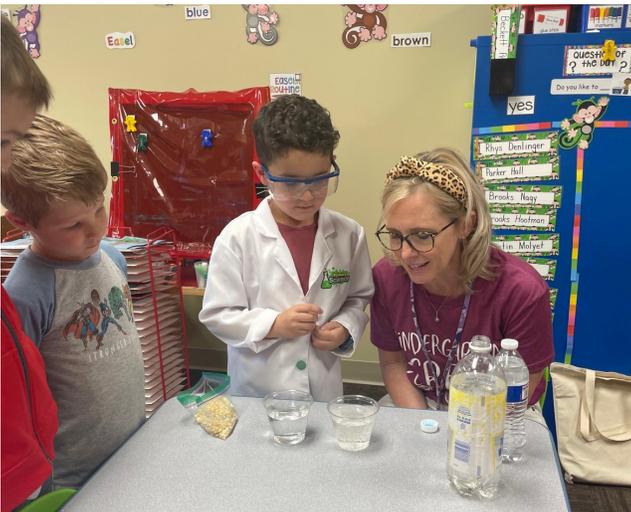

Children participate in a structured yet flexible program designed to build academic, self-help, and social skills through reading, writing, math, science, social studies, and art. Our day is filled with literacy-rich activities that keep the children engaged and eager to learn. We complement the learning from their home school and provide accelerated work, or additional support, based on individual needs in a lower student-to-teacher ratio.
