TECHNOLOGY PARTNERS, LLC

Adapt⁺ to today's business environment

Agility is a necessity in today's applications and the Acuity team can ensure your Workday operations are able to adapt to future needs. Maybe you just went live on Workday or have been using Workday for years. We can help you build and execute your roadmap – enhance, expand, or even assist in running your Workday application. Your business moves fast and partnering with us ensures you have the right support – where you need it and when you need it.

Gain Agility with ADAPT⁺ Solutions

Today, technology leaders must balance three core areas of their domain – target, talent, and technology. A clear strategy, a skilled and properly staffed team, and robust functionality are fundamental to the successful support of your organization. We can help bridge gaps in each of these areas to help you remove risk and maximize system value.

Run: Support as Configurable as Workday

- + Interim support – backfill, LOA, outsource
- + HR/payroll transaction solutions
- + Seasonal support
