

ACUITY

TECHNOLOGY PARTNERS, LLC

Implementing Workday® and Don't Know Where to Start?

Let's get you on the right Path⁺

Implementing Workday will result in many advantages for your company, but the road to get there takes time and preparation. So, where do you start? Acuity Technology Partners works alongside you to ensure a successful Workday transformation. As your client-side Workday solutions team, we partner with your organization to guide technical conversations, move project deliverables to completion, and support your organizational readiness needs.

PATH⁺: Workday Project Solutions

We are experienced leading diverse and complex Workday implementation and enhancement projects for a wide range of companies spanning a multitude of industries. We team with your implementation partner to deliver a successful Workday transformation, including:

Project Leadership

- + Workday partner management
- + Application strategy and roadmaps
- + Executive advisory and governance support
- + Audit/SOX process support

Project Management

- + Project planning
- + Team coordination and communication
- + Task management and reporting
- + Issues, escalations, and risk management

Organizational Readiness

- + End-user adoption and training support
- + Subject matter expert (SME) training support
- + Change management (OCM)
- + Communication coordination

TEAM⁺

Solutions

Is your team unfamiliar with digital transformations or already overextended addressing day-to-day work? Our experienced team specializes in providing expertise and hands-on support for your Workday transformation.
