I AM THE SPIRIT YOU ARE ATTEMPTING TO CONTACT

I cannot predict your future. Like you, I can only make choices.

I cannot fulfill your memories of me. I have my own perspective.

I cannot provide you with family members unless I've known them myself.

I have not miraculously changed my opinion about \_\_\_\_\_ just because I have passed. I still feel the same.

I may not be able to connect with you yet because I am still getting used to being here. Please receive those who have been here longer than me. They are paving the way for me and are helping me to become prepared to greet you through my own skill and under my own steam.

You may not want to talk to me because of our past differences, but please realize that I may be the one that is able to connect you to those with whom you wish to speak. Please listen. You can reject me later if you still want.

I may not be your passed-on relative or friend. I may know that you have a connection to someone with whom I wish to give a message. Please be kind and deliver it.
